#### 4. FIRST AID MEASURES

Eyes:	Immediately flush eyes gently with plenty of water for at least 15 minutes while holding eyelids apart. If symptoms persist or there is visual difficulty, seek medical attention.
Skin Contact:	In case of contact, immediately wash contaminated area with plenty of water for at least 15 minutes. Seek medical attention if symptoms persist. Wash clothing before reuse.
Ingestion:	Do not induce vomiting. Have victim drink 8 to 10 ounces of water to dilute the material in the stomach. Contact a physician, medical facility, or poison control center immediately. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into lungs.
Inhalation:	Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Keep the victim warm and quiet. Seek immediate medical attention.
NOTES TO PHYSIC	

NOTES TO PHYSICIAN: No additional first aid information available.

5. FIRE FIGHTING MEASURES		
Fire and/or Explosion Hazards:	Product is a water base material and is not ignitable.Dried product can burn. "Empty" containers retain product residue and can be dangerous.	
Fire Fighting Instructions:	Use CO2, foam or dry chemical. Do not direct a solid stream of water or foam into hot burning pools, this may cause frothing and increase fire intensity.	

#### 6. ACCIDENTAL RELEASE MEASURES

#### STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED:

Wear appropriate personal protective equipment (PPE). Avoid run-off into storm sewers and ditches which may lead to natural waterways. Clean up with absorbent material. Place absorbent materials into container and close it tightly. Dispose of container properly. If runoff occurs, notify authorities as required. Remove all sources of ignition. Stop or reduce discharge if it can be done safely. Ventilate contaminated area. Do not use water for cleanup. Absorb spill with inert material (e.g., dry sand or earth), then place in a chemical waste container.

#### 7. HANDLING AND STORAGE

Handling: Use with adequate ventilation. Avoid prolonged or repeated contact with skin. Avoid prolonged or repeated breathing of vapor. Wash hands thoroughly after handling.
 Storage: Keep container tightly closed when not in use. Keep from freezing. Store in a cool, dry, well ventilated area away from all sources of

ignition. Store at temperatures between 45° and 99° F. Normal precautions common to safe manufacturing practice should be followed in handling and storage.

#### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Controls:	No exposure limits exist for the constitu- comfort under normal conditions of use below in this section of the MSDS (from areas where exposure limits may be exercised)	e. Ventilation should be ade m known, suspected or appa	quate to prevent exposures al	bove the limits indicated
Eye Protection:	Wear chemically resistant safety glasse chemical splash goggles and/or face sh airborne material. Have an eye wash sta	eld when the possibility ex
