#### Section 2. Hazards Identification

Classification ACUTE TOXICITY - ORAL - Category 4

> EYE DAMAGE/IRRITATION - Category 2B FLAMMABLE AEROSOLS - Category 1 SKIN CORROSION/IRRITATION - Category 2

SPECIFIC TARGET ORGAN TOXICITY (Repeated Exposure) - Category 2 SPECIFIC TARGET ORGAN TOXICITY (Single Exposure) - Category 3

TOXIC TO REPRODUCTION - Category 2

Signal Word Danger

#### **Pictogram**

Hazard Statements Causes eye irritation

Causes skin irritation

Extremely flammable aerosol

Harmful if swallowed

May cause damage to organs through prolonged or repeated exposure.

May cause respiratory irritation.

Suspected of damaging fertility or the unborn child.

**Precautionary Statements** 

Response Get medical advice/attention if you feel unwell.

If exposed or concerned: Get medical advice/attention. If eye irritation persists: Get medical advice/attention.

If in eyes: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing.

If inhaled: Remove person to fresh air and keep comfortable for breathing.

If on skin: Wash with plenty of soap and water.

If skin irritation occurs: Get medical advice/attention.

If swallowed: Rinse mouth. Do NOT induce vomiting. Call a POISON CENTER

or doctor/physician if you feel unwell.

Read label before use.

Rinse mouth.

Take off contaminated clothing and wash it before reuse.

Prevention Avoid breathing dust/fume/gas/mist/ vapors/spray.

Do not eat, drink or smoke when using this product.

Do not handle until all safety precautions have been read and understood.

Do not spray on an open flame or other ignition source.

Keep away from heat.

Obtain special instructions before use.

Pressurized container: Do not pierce or burn, even after use.

Use only outdoors or in a well-ventilated area.

Wash thoroughly after handling.

Wear protective gloves.

Storage Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.

Store in a well-ventilated place. Keep container tightly closed.

Store locked up.

Disposal Dispose of contents/container in accordance local, state and federal

regulations.

#### Section 3. Ingredients

| CAS      | Ingredient Name | Weight %  |
|----------|-----------------|-----------|
| 67-56-1  | Methyl alcohol  | < 4.0 %   |
| 108-88-3 | Toluene         | 10% - 20% |
| 142-82-5 | Heptane         | 20% - 40% |
| 67-64-1  | 2-Propanone     | 40% - 60% |
| 124-38-9 | Carbon dioxide  | 5% - 10%  |

Occupational exposure limits, if available, are listed in Section 8.

#### Section 4. First-Aid Measures

Ingestion Do NOT induce vomiting. Administer 3-4 glasses of milk or water. Never give

anything by mouth to an unconscious person. If vomiting occurs

spontaneously, keep head below hips (if sitting) or to the side (if lying down) to

prevent aspiration. Get immediate medical attention.

Inhalation Remove individual to fresh air. Give oxygen if breathing is labored. If breathing

has stopped give artificial respiration. Keep person warm, quiet and seek

medical attention.

Skin Contact Remove contaminated clothing and wash skin with soap and water. Get

medical attention if irritation persists. Launder clothing before reuse.

Eye Contact Immediately flush eyes with water for at least 15 minutes. Get medical

attention if irritation develops.

## Section 5. Fire Fighting Measures

Suitable Extinguishing Dry p

Media

Unsuitable Extinguishing

Media

Flammability (per flame

projection)

**Procedures** 

Unusual Fire and Explosion Hazards

Special Fire Fighting

Dry powder, foam, carbon dioxide.

Water may be ineffective.

Extremely flammable

Contents under pressure. Closed containers may explode (due to the build-up of pressure) when exposed to extreme heat. Do not use near fire, sparks or

flame. Do not puncture or incinerate container. Do not expose to temperatures

exceeding 120F as containers may vent, rupture or burst.

Full protective equipment including self-contained breathing apparatus should be use. Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to keep cool closed containers to prevent build-up and possible auto-ignition or explosion when exposed to extreme

heat.. Use proper equipment to protect personnel form bursting containers.

#### Section 6. Accidental Release Measures

Steps to be taken in case of spill or release

Absorb spill with inert material then place in a chemical waste container. Dispose of spill material in accordance with regulations.

#### Section 7. Handling and Storage

**Important** Extremely flammable. Contents under pressure. Do not smoke while using or

> use near open flame. Container may explode if heated in any manner. Protect from sunlight and do not expose to temperatures exceeding 122F/50C (ex: electric lights). Do not pierce or burn container, even after use. Do not spray on

a naked flame and any incandescent material. DO NOT SMOKE WHILE

USING THIS PRODUCT.

Storage Do not store at temperatures above 120F. Do not puncture or incinerate

containers. Keep out of reach of children. Store in accordance with NFPA 30B

for Level 3 Aerosols.

Handling Do not puncture or incinerate containers. Keep out of reach of children. Read

ACCILITIAL

5000 ppm

label precautions carefully. Follow label directions to avoid injury. Use only with adequate ventilation. Avoid breathing vapor and spray mist. Avoid contact with

skin and eyes. Wash hands after using.

Personal Protective

Equipment

N/A

Ventilation Local exhaust preferable. General exhaust acceptable if exposure is below

applicable exposure limits.

Respiratory Protection If personal exposure cannot be controlled below applicable limits by

> ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH/MSHA for protection against materials in Section 2. When sanding

or abrading the dried film, wear a dust/mist respirator approved by

NIOSH/MSHA for dust which may be generated from this product, underlying

paint, or the abrasive.

**Eye Protection** 

Safety goggles or glasses with side shields are recommended.

Skin Protection

None required for normal application of aerosol products where minimal skin contact is expected. For long or repeated contact, wear chemical resistant

gloves.

Other Precautions

Intentional misuse by deliberately concentrating and inhaling the contents can

be harmful or fatal.

Note

These precautions are for room temperature handling. Use at elevated temperatures or aerosol/spray applications may require added precautions.

Note The above information is not intended for use in preparing product specifications. Contact Soudal Accumetric before writing specifications.

## Section 10. Stability and Reactivity

Chemical Stability Stable
Hazardous polymerization Will not occur

Conditions to Avoid Open flames; Temperatures above 120F Materials to Avoid Avoid contact with strong oxidizers.

Hazardous Decomposition Carbon monoxide, carbon dioxide, hydrocarbons Products

#### Section 11. Toxicological Information

Carcinogenicity No ingredient in this product is an IARC, NTP or OSHA listed carcinogen.

Chronic Hazards Intentional misuse by deliberately concentrating and inhaling the contents may

be harmful or fatal. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous

system damage.

Component Toxicology Information

Prolonged or repeated exposure to Hexane may cause damage to nerve tissue of the arms and legs (peripheral neuropathy), resulting in muscular weakness and loss of sensation. This effect may be increased by the

presence of Methyl Ethyl Ketone.

Prolonged overexposure to solvent ingredients may cause adverse effects to

the liver systems.

Reports have associated repeated and prolonged overexposure to solvents

with permanent brain and nervous system damage.

#### Section 12. Ecological Information

Fate and Effects in Waste Complete information is not yet available.

Water Treatment Plants

Environmental Effects Complete in Environmental Fate and Complete in

Distribution

Complete information is not yet available. Complete information is not yet available.

### Section 13. Disposal

Waste Disposal Method Waste from this product may be hazardous as defined under the Resource

Conservation and Recovery Act (RCRA). Waste must be tested for ignitability to determine the applicable EPA hazardous waste numbers. Do not incinerate. Depressurize container. Dispose of in accordance with Federal, State and

local regulations regarding pollution.
