- Anti-slip Formula
- TPMS Compatible
- Lifetime Tire Balance
- Moisture Resistant

To achieve maximum results, it is important to use the proper package size for each tire. If you are using our throw in bags, open and discard outside bag only, and throw clear inner bag directly into the tire. It is imperative that none of the contents of the bag end up on the bead seating area of the tire and rim. Axion Balance is TPMS safe and compatible. Always wear safety glasses when installing Axion Balance. Counteract disclaims any responsibility for air loss or tire damage due to improper installation or air check. All recommendations are for stock applications. If any vehicle modifications have been performed please consult with Counteract before proceeding with use of the product. Counteract is not responsible for performance after a vehicle has been altered from its OEM state.
