MAXX 80 TIRE CHANGER

BUILT ON THE BEST PLATFORM IN THE BUSINESS

MAXX RIM/CLAMP

The Coats® Maxx picks up where the X-Series left off but goes further. This unit has been completely redesigned from the ground up based on extensive customer R&D and represents what it takes to make it in the high-volume tire business.

✓ **WIDER, MORE ROBUST CHASSIS**

✓ **MORE POWER, MORE FEATURES**

✓ **IMPROVED SPEED AND RELIABILITY**

**6" - 24" EXTERNAL
CLAMPING DIAMETER**

**BOTH HAND AND FOOT
CONTROL BEAD LOOSENER
INCLUDED**

**220V 2HP AND 110V
ELECTRIC OR AIR MOTOR**

74"W X 86"H X 44"D

POWERFUL DYNAMIC FEATURES

DURABLE AND RELIABLE

More Robust Chassis

Tested up to 250,000 bead breaking cycles for ultimate durability in the harshest working environments.

BETTER BEAD SEALING

Dual Nozzle Bead Sealer

Seal difficult assemblies with ease with more air, more quickly.

TIME SAVER

No-Index Tabletop

Save time by not having to index the tabletop when working on large assemblies, reducing pedal presses and allowing techs to keep moving.

BEAD LOOSENER CHOICE

Hand and Foot Operated Bead Loosener

Different technicians have different work styles. Giving them a choice (hand or foot) of how they do the work lets them get it done on their terms.

VERSATILE CLAMPING

Grip Max 2.0 Clamps

Clamp passenger car, light truck or extreme custom applications without changing anything for maximum time savings and damage avoidance.

POWER WHEN YOU NEED IT

220V 2HP Power Option

With high torque 220V 2HP motor you can power through tough assemblies.

PATENTED TOOL HEADS

Our patented tool heads work hard so you don't have to. The Maxx 80 features our Polymer Duckhead, Robo Roller and Robo Arm to make changing any tire a breeze.

ROBO ROLLER ARM

Device that provides additional power when mounting difficult tire assemblies and prevents the bead from rolling back over the mount tool.

ROBO ARM BEAD DEPRESSOR

Tool used to push the tire bead into the drop center of the rim, allowing for effortless mounting and dismounting of the tire.

POLYMER DUCKHEAD

Tool used for mounting and dismounting tires without damaging the rim.
