Subject: Double Check Valve Caps Update

On 11/29/2013 a decision was made to replace both the Allegro V2B and the Dill #C286541N with the **Haltec DS1**. The **DS1** is now the **only approved** cap for use in Ryder. Our Ryder locations will purchase stock inventory of the **DS1** through Ryder Fleet Products. ✖

Any questions please do not hesitate to call

Thanks
