### 2. HAZARD IDENTIFICATION

#### POTENTIAL HEALTH EFFECTS

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Hazard  
Symbols

#### GHS Classification

Serious Eye Damage/Eye Irritation Category 2A  
Acute Toxicity - Inhalation Vapour Category 4  
Acute Toxicity - Dermal Category 4  
Acute Toxicity - Oral Category 4

#### Signal Word

Warning

#### Hazard Statements

Harmful if swallowed, in contact with skin or if inhaled.  
Causes serious eye irritation.

#### Precautionary Statements

##### Prevention

Avoid breathing dust/fume/gas/mist/vapours/spray.  
P264 - Wash thoroughly after handling.  
Do not eat, drink or smoke when using this product.  
Use only outdoors or in a well-ventilated area.  
Wear protective gloves/protective clothing/eye protection/face protection.

##### Response

P301+P312 - If swallowed: Call a poison center, doctor or medical center if you feel unwell.  
P302+P352 - If on skin: Wash with plenty of soap and water.  
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P312 - Call a poison center, doctor or medical center if you feel unwell.  
P321 - Specific treatment (see on this SDS).  
Rinse mouth.  
If eye irritation persists: Get medical advice/attention.

##### Disposal

Dispose of contents/container in accordance with local/regional/national/international regulation for hazardous wastes.

#### 4. FIRST AID MEASURES

|               |   |
|---------------|---|
| Eyes:         | Immediately flush eyes gently with plenty of water for at least 15 minutes while holding eyelids apart. If symptoms persist or there is visual difficulty, seek medical attention.  |
| Skin Contact: | In case of contact, immediately wash contaminated area with plenty of water for at least 15 minutes. Seek medical attention if symptoms persist. Wash clothing before reuse.  |
| Ingestion:    | Do not induce vomiting. Aspiration into the lungs can cause serious damage. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into lungs. Contact a physician, medical facility, or poison control center immediately. |
| Inhalation:   | Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek immediate medical attention. Keep the victim warm and quiet.   |

NOTES TO PHYSICIAN:  
No additional first aid information available.

#### 5. FIRE FIGHTING MEASURES

|                                |  |
|--------------------------------|--|
| Fire and/or Explosion Hazards: | Product is water based material, containing minor amounts of combustible ingredients. This product contains a component(s) that is considered a combustible liquid, which has vapors that are heavier than air and may travel along the ground or be moved by ventilation and ignited by heat, pilot lights, or other flames and ignition sources at locations distant from the material's handling point. "Empty" containers retain product residue and can be dangerous. |
| Fire Fighting Instructions:    | Use water spray, foam, dry chemical, or CO <sub>2</sub> . Do not direct a solid stream of water or foam into hot burning pools, this may cause frothing and increase fire intensity.   |

#### 6. ACCIDENTAL RELEASE MEASURES

##### STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED:

Remove all sources of ignition. Wear appropriate personal protective equipment (PPE). Stop or reduce discharge if it can be done safely. Ventilate contaminated area. Avoid run-off into storm sewers and ditches which may lead to natural waterways. If runoff occurs, notify authorities as required. Clean up with absorbent material. Place absorbent materials into container and close it tightly. Dispose of container properly.

#### 7. HANDLING AND STORAGE

|           |   |
|-----------|---|
| Handling: | If ventilation is not sufficient, wear proper respiratory equipment. Do not use near ignition sources. Avoid prolonged or repeated breathing of vapor. Normal precautions common to safe manufacturing practice should be followed in handling and storage. Avoid prolonged or repeated contact with skin. Avoid contact with eyes. Wash hands thoroughly after handling. Good housekeeping and controlling dust are necessary for safe handling of dust. |
| Storage:  | Keep container tightly closed when not in use. Store in a cool, dry, well ventilated area away from all sources of ignition. Normal precautions common to safe manufacturing practice should be followed in handling and storage.   |

#### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

|                         |   |
|-------------------------|---|
| Engineering Controls:   | Ventilation should be adequate to prevent exposures above the limits indicated below in this section of the MSDS (from known, suspected or apparent adverse effects). Local exhaust should be used in areas where exposure limits may be exceeded. No exposure limits exist for the constituents of this product. |
| Eye Protection:         | Wear chemically resistant safety glasses with side shields when handling this product. Wear additional eye protection such as chemical splash goggles and/or face shield when the possibility exists for eye contact with splashing or spraying liquid or airborne material. Have an eye wash station available.  |
| Skin Protection:        | The use of chemically resistant gloves is recommended if there is any possibility of prolonged or repeated liquid contact with skin.  |
| Respiratory Protection: | Use NIOSH approved respirator where there is likelihood of inhalation of the product mist, spray or aerosol. The use of a nuisance dust mask is recommended for prolonged or repeated use.  |
