Portable Bottle Jacks

301-76312

Portable Bottle Jacks

2, 3, 5 AND 8-TON CAPACITY **BOTTLE JACKS**

- For heavy duty truck, agriculture, construction, mining, mobile home, oil field, automotive, and marine applications where lifting, pushing, spreading, bending, pressing, or straightening are required
- Two piece zinc plated handle Prevent rust with "Parkerized" pump piston, ram and extension screw
- No leak "Uniweld" construction 50% safety overload factor • State of the art design reduces repair time
- Longer wear life due to internally machined oil
- passages, smooth bearing surfaces and close tolerances
- Lightweight forged base provides more steel only where strength is required • The heavy-duty extension screw and release valve were designed to eliminate parts and reduce the chances of breakage and excessive wear
- Safety bypass and overload systems prevent cylinder damage and prevent the jack from being used beyond the ASME/PASE load-limiting standard • Made in Japan

ASCOT NO.	MFG. NO.	CAPACITY (TONS)	MIN. HEIGHT	MAX. HEIGHT	LIFTING HANDLE

301-76508	76508B	8	9-1/16"	18-3/4"	Yes

12 AND 20-TON CAPACITY AIR/ HYDRAULIC BOTTLE JACKS

■ Fast efficient air pump reduces lifting time and has a built-in relief mechanism which prevents the jack from being used beyond its maximum capacity ■ Convenient push button air valve connected to an in-

line filter prevents contaminates from entering the air/hydraulic system ■ Unique design allows for manual operation when air is not available ■ Two piece zinc plated handle ■ Parkerized coating on pump piston, extension screw and extension adapters and

chrome coated ram offer protection against rust

• Longer wear life due to internally machined oil passages, smooth bearing surfaces and close tolerances • Safety oil by-pass system prevents the ram from being overextended and causing damage to the cylinder • Made in Japan

Service Jacks, Long Chassis Service Jacks

Service Jacks (cont.)

2 AND 3-TON SERVICE JACKS

■ One-piece handle ■ Flanged side plates increase strength ■ In-line pump provides efficient pumping operation ■ Full swivel rear casters for easy positioning ■ Sealed hydraulic pump for durability ■ Pressure relief valve prevents overloading ■ Cast iron lift arm for heavy duty loads ■ U-joint release mechanism for precise load control ■ 2 Year Warranty

4 AND 10-TON LONG CHASSIS SERVICE JACKS

■ Dual piston action provides speed to contact and power to lift ■ Long chassis for hard to reach points ■ Handle adjusts to three pumping positions ■ Heavy gauge, steel frame helps prevent distortion ■ "T" handle with release knob for exact positioning of load ■ 2 Year Warranty

RPG 3.5-TON SERVICE JACK

Quick-lift dual-pump design makes it easy to reach the lifting point under your car.

- Quick-lift dual-pump design makes it easy to reach the lifting point under your car
- Safety bypass system for cylinder protection
- Industrial grade casters for easier transportation
- Double pump piston to decrease required strokes needed to reach chassis
- Sturdy, onepiece handle

- Foam handle for vehicle protection
- Bolt-on reinforced and heavy duty lift arm axle
- Heavy duty chassis for increased strength and durability
- Universal joint mechanism

HANDLE PROTECTORS

- Made of a durable synthetic rubber
- Fits multiple jack manufacturers' handles and popular tire tools
- Unique design ensures a tight fit on jack/tool handle without slippage
- Protects vehicles from scratches or dents caused by falling jack handles and unstable tools in the shop ■ Patent Pending design absorbs the dent/ scratch-causing force as the handle contacts an adjacent vehicle

HIGH TONNAGE JUMBO JACKS

■ Ideal for giant tire changing, mining, railroads, construction rigging ■ No need for cribbing - time savings! ■ Balanced for easy moving ■ Large pneumatic wheels ■ Only 23" wide, the jacks fit in tight spots ■ 50" long, 8 position handle for easy tilt back and moving of the jack • Welded fully enclosed heavy-duty steel frame with built in lifting holes ■ Hydraulic radial piston pump ■ Minimum 90 to 150 psi air supply needed to power hydraulic pump ■ Extension holders bolted to frame for easy storage ■ Easy to change oil filter

■ All Jacks come with 5" & 9" extentions & 1" saddle

The High Tonnage Jumbo Jack in use.

- Unique spring loaded pawl provides constant locking pressure against lifting column when raising the column to the load - the benefit is that it makes it a one-handed operation
- Four legged base with foot pads for added strength and more secure footing
- Common machine bolt secures lifting column to stand and provides stability
- Recessed column saddle for acceptance of vehicle panel rail • Design qualification tested to 200% of rated capacity - Capacity is per pair

156 LIFTING EQUIPMENT // JACK STANDS

RPG Heavy Duty Jack Stands

Jack Stands (cont.)

3, 6 & 12-TON JACK STANDS

10-TON HIGH JACK STANDS (PAIR)

■ Pin-style stands with supporting range from 27.95" to 47.56" suitable for high-height applications ■ Heavy-duty tubular steel design provides stability and rigidity • Multiple pin holes to allow easy adjustment to desired height ■ Saddle with lugs for easy positioning of the load • Sold and to be used only in pairs

22-TON JACK **STANDS**

Used in pairs for supporting trucks, trailers, and equipment in fleet garages, agricultural, industrial and construction environments • Sturdy, welded steel construction for exceptional safety and strength ■ Heavy gauge steel helps prevent distortion or twisting

■ Wide base for added stability ■ Multiposition iron column bar for convenient height adjustment ■ Sold in pairs of two

Wheel Dollies

1/2-TON CAPACITY HYDRAULIC WHEEL DOLLY

- For the removal and installation of single, tandem and duplex tires and wheels which are mounted on trucks that are supported above ground level
- Heavy duty lift arms made with ball bearing conveyor rollers allow easy rotation of wheels for alignment with bolt pattern
- 7-1/2" of side-to-side lift arm adjustment eliminates the trial and error method of aligning the rim's lug holes with the wheel drum
- A 1500-pound capacity heavy duty winch with 5-to-1 gear ratio provides ease of operation
- The winch gear design acts as a brake and allow the load to be lowered incrementally if desired and without the need of constant hand pressure against the crank handle
- A hydraulic jack tilts the lift arms in order to match the angle of the spindle
- Safety chain provided to secure tires and wheels to the dolly
- Maneuverability is made easy by means of two rear mounted ball bearing swivel caster wheels. The caster wheels include a locking mechanism which can prevent the dolly from moving
- Perfect for use with truck lifts
- ASSEMBLED IN THE USA
- 82304 has the same great features as the 82302B but also includes and air-operated pump that allows the unit to lift the load effortlessly

Tweel Handler, Heavy Duty Tire Dolly

TW2000 TWEEL HANDLER™

■ The TW2000 Tweel Handler™ is an amazingly versatile tool that allows truck mechanics to remove, install, rotate and transport single tire-and-wheel assemblies with ease • The vertical range of conventional wheel dollies is 3° or 4°, forcing you to kneel down to inspect tires, or use a floor jack to raise the tire up. The TW2000 solution is a built-in ratcheting jack with 14° of vertical travel. No more bending over! ■ The Tweel Handler's U-shaped chassis allows you to get close to the work area, with unhindered access to the tire in the cradle ■ No restraining chains are required, yet the Tweel Handler™ holds virtually any single truck wheel, including wide-based singles Three heavy-duty ball-bearing wheels mounted under

ball-bearing swivel casters make it highly maneuverable

CHASSIS FOR

HEAVY DUTY TIRE DOLLY

■ Reduce back injuries ■ Perfect stud alignment ■ Perfect for 8 to 10-hole Budd-type wheels ■ Removes truck wheels and tires fast and easy ■ Increases productivity ■ Reduces manpower needs ■ Saves time and money, maintenance free ■ Works with tires 23.5" to 43.5"

STOP WASTING MONEY ON EQUIPMENT THAT DOESN'T LAST.

NORCO equipment works as hard as you do!

Our equipment lasts because we use the latest ASME/PASE safety standards for our design qualification. The ASME/PASE safety standard applies to the design, testing, operation, maintenance, and inspection of portable automotive service equipment. Tirelessly working to meet these standards ensures that NORCO products are safe for the user and perform beyond their expectations. All Norco products, whether imported or assembled in the USA, are confidently covered by the NORCO Limited Lifetime Warranty.

A proud partner in the ASCOT Supply Network for over 30 years.
