4. FIRST AID MEASURES

First Aid Measures

General Advice Provide this SDS to medical personnel for treatment.

Eye Contact Rinse cautiously with water for several minutes. Remove contact lenses, if present and

easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Revision Date: 29-Jul-2020

Skin Contact Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. If

skin irritation or rash occurs: Get medical advice/attention. Call a poison center or doctor/physician if you feel unwell. Wash contaminated clothing before reuse.

Inhalation Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not

breathing, give artificial respiration. If symptoms persist, call a physician.

Ingestion Do not induce vomiting. Immediately call a poison center or doctor/physician. If vomiting

occurs naturally, have victim lean forward to reduce risk of aspiration.

Most important symptoms and effects

Symptoms Harmful if swallowed. Harmful in contact with skin. Causes skin irritation. Causes serious

eye irritation. May cause respiratory irritation. May cause drowsiness or dizziness. May cause pulmonary edema. Possible symptoms are irritation of the mucous membranes, dry cough and respiratory difficulty. Other symptoms may include dizziness, headache, nausea,

and loss of coordination.

Indication of any immediate medical attention and special treatment needed

Notes to PhysicianTreat symptomatically. Aspiration of material into the lungs due to vomiting can cause

chemical pneumonitis which can be fatal. Epinephrine and other sympathomimetic drugs may initiate cardiac arrhythmias in persons exposed to high concentrations of hydrocarbon solvents. The use of other drugs with less arrhythmogenic potential should be considered. If sympathomimetic drugs are administered, observe for the development of cardiac

arrhythmias.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Water spray (fog). Alcohol resistant foam. Dry chemical. Carbon dioxide (CO2).

Unsuitable Extinguishing Media Do not use solid water streams.

Specific Hazards Arising from the Chemical

Highly flammable liquid and vapor. The liquid vapor may settle into low areas or may travel along the ground or surface to ignition sources where they might ignite or explode. Flash back possible over considerable distance.

Explosion Data

Sensitivity to Static Discharge Take precautionary measures against static discharge.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Use water spray to keep fire-exposed containers cool. Fight fire remotely due to the risk of explosion. Collect contaminated fire extinguishing water separately. Do not allow it to enter drains or surface water.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions Wear protective clothing as described in Section 8 of this safety data sheet. Evacuate

personnel to safe areas. Remove all sources of ignition. Ensure adequate ventilation. Avoid

breathing vapors or mists.

Environmental precautions

Environmental precautions Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See

Section 12, Ecological Information.

Methods and material for containment and cleaning up

Methods for Containment Prevent further leakage or spillage if safe to do so. Prevent evaporation by covering with

foam. Soak up and contain spill with an inert (i.e. vermiculite, dry sand or earth) absorbent

material.

Methods for Clean-Up Use only non-sparking tools. Place in properly labeled, sealed, non-leaking containers.

Dispose of contents/container via a licensed waste disposal contractor. For waste disposal,

see section 13 of the SDS.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on Safe Handling Obtain special instructions before use. Do not handle until all safety precautions have been

read and understood. Use personal protective equipment as required. Wash face, hands. and any exposed skin thoroughly after handling. Do not eat, drink or smoke when handling this product. Wear eye/face protection. Do not breathe dust/fume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Keep away from heat/sparks/open

flames/hot surfaces. — No smoking. Ground/bond container and receiving equipment. Use spark-proof tools and explosion-proof equipment. Take precautionary measures against

static discharges. Keep cool. Avoid formation of aerosol.

Conditions for safe storage, including any incompatibilities

Storage Conditions Keep containers tightly closed in a cool, well-ventilated place. Store locked up. Heat

sensitive-store under inert gas.

Incompatible Materials Acids. Bases. Halogens. Metal salts. Oxidizing agents. Reducing agents.
