## 1/2" Drive Super Duty Air Impact Wrench

- 2" extended anvil
- Handle exhaust
- Free speed: 8000 RPM
- Maximum torque: 600 ft./lbs.
- Proven design and the most popular configuration in the tire service industry
- Powered by the durable and high performing twin hammer mechanism
- Net weight: 5.6 lbs.

**\$119.99**

## MACH™ Series Mobile Column Lifts

### MCH14 wireless

4 Column Configuration; 52,000 lbs. capacity

### Easy to use!

- Exclusive intuitive control console - lift is controlled from any column
- Lifts with two, four or six columns at multiple capacities
- Easily adjusts to accommodate a variety of tire sizes
- Inverted, concealed hydraulic cylinder
- Surface mounted and portable - no excavation or site preparation
- Battery operated with an onboard charger that uses only 110v electricity to charge - no power cords to clutter service bays
- 14K - 19K configuration
- Shipped with batteries & hydraulic fluid so ready to use!

Shown  
MCH413U1A00RDYL

## Mach Flex Mobile Column Lifts

- New higher column capacity 18,800 lbs
- Easy to use intuitive remote control operation
- Control all columns from anywhere in the bay with remote included with purchase.
- Includes LockLight™ on each column
- Vehicle Height and Weight digital display gauges

2, 4, 6, & 8 column configurations available!

SM301 - 30,000 LBS.  
LIFTING CAPACITY

CALL FOR PRICING

## Two-Post Lifts

- Original "Double S" single piece column design maximizing strength
- Slider block bearings of Tivar 1000 polyethylene that self-lubricate and are maintenance free
- Adjustable height options with column extensions
- Asymmetrical and symmetrical designs to suit your needs
- Trio three stage arms for asymmetrical lifts
- Shockwave and standard (10,000-20,000lbs) configuration available in two-post
- Multi-position column locks

SPOA10

## SHOCKWAVE Equipped Lifts

- 2X Faster rise and descent than standard lifts
- DC powered which reduces installation/operating costs
- Two standard Group 24 batteries charged by the 110v that runs the lift removes the need for expensive 220v wiring and can operate during power loss
- Spotline motion activated laser helps spot vehicles the first time
- Available on lifts from 7,000-20,000 lbs

## Inground Smartlifts

- 10,000-12,000 lbs capacity models available
- High efficiency power and air per lifting cycle, selected in key lead projects
- Reduces space usage and allows more lifts
- Trio three stage arms for pinpoint location
- Shockwave or standard available

SL210

## Smartlift Green Features

- Uses only 19 quarts "Bio-Fluid"
- An entirely closed system housed in a recycled polymer composite containment which protects the environment and the lift
- The Smartlift uses only .045 kWh of electricity and .01 cfm of air per lifting cycle
- Steel components and housing can be recycled again at the end of the lift's lifecycle

**The World's Most Trusted Lift™** A DOVER COMPANY

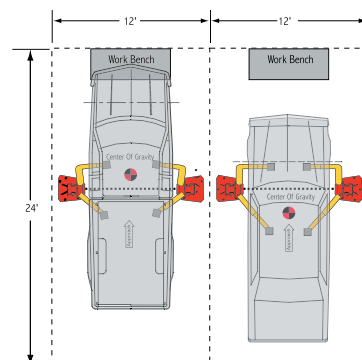

## Rotary Symmetric / Asymmetric

### Benefits of True Asymmetric Lifting:

- When the lift is loaded properly, doors can be opened and the vehicle is positioned a minimum of 24" away from the nearest obstruction.
- With true asymmetrical lifting, the columns are rotated 30° to place the approximate center of gravity of the vehicle in reduce wear and tear on the lift.
- Asymmetrical lifting provides more clearance at the rear of the columns (the open door contact point) approximately 117" vs. 103".

## Versymmetric® / 2-in-1 Lift

### Pitfalls of Versymmetric / 2-in-1 Lifting:

- When the lift is loaded, long vehicles that should be loaded symmetrically extend too far forward, leaving no room for work benches or walking area. Asymmetrical lifting positions the vehicle too far back, which intrudes into the drive-through area or even an exterior bay door.
- Versymmetric lifting places the approximate center of gravity of the vehicle in front of or behind the optimum load capacity of the lift. By doing so, wear and tear on the column, carriage and bearings is increased.
- No spotting dish makes vehicle positioning "Guesswork".
- The front arm is offset 5" which requires short wheelbase vehicles be pulled further forward to clear the front tire, which reduces the clearance to open doors.

Versymmetric and 2-in-1 style lifts have short arms on the front and long arms on the rear. This is done to accommodate the pick up points of vehicles that are shifted to the rear in order to improve open door clearance for the technician getting in and out of the car. In a symmetric load condition the vehicle is centered fore and aft (not shifted to the rear). The short front arms are unable to reach the pick up points in the symmetric load condition. This can be easily demonstrated by picking up an F350 as shown.

Lift any, vs, way, 2009.02

## Air/Electric Utility Boxes

- Two 110v electric outlets and air connections mount easily to any column and provide quick access to utilities.
- The filter/regulator/lubricator extends the life of your airtools.

**FA5911BK (with filter/regulator/lubricator)**  
**FA5910BK (without filter/regulator/lubricator)**

## Door Defender™

Rotary's new door defender allows technicians to easily enter and exit the vehicle without damaging their customer's vehicles. The door defender is a low profile solid rubber guard designed to fit over the two-post lift carriage. The N823 door defender kit includes: 1 door defender, adhesive to attach to the lift, a Rotary decal and instructions.

**Model #N823**

## Norco under hoist stand 3/4 ton

- Lightweight, slender design makes handling easy, even in close quarters
- Quick adjust spin handle with thrust bearing eliminates wear and provides ease of turning under load
- Extended height 81"

**81033A**

## Norco 1/2 ton transmission Jack

- Fully adjustable universal saddle with adjustable corner brackets and safety chain, 72" raised height
- Safety overload system prevents jack from being used beyond rated capacity
- Foot operated pump and lowering pedals
- Two-stage flash chromed rams inhibit rust from entering hydraulic system
- Wide base with polyurethane wheels to protect floors.

**72500E**

Ask us about fuel tank saddles

## Wheel Arm for lifts

**92100**

- 100 lbs Capacity
- Set of two arms
- Comes with 2 magnetic tool trays, hex key, and mounting shims

Wheel arms hold tires at the lift arm height – great for tire rotations and brake jobs

## Rubber lift pad for any lift available!

- 300 Maximum Working Pressure
- 110 Volt w/6Ft Power Cord
- Y-Strainer & Ball Valve Included
- Adjustable Timer For Blow Down
  - » 1/2 Second - 45 Minutes Interval Time
  - » 1/2 Second - 10 Seconds Discharge Time

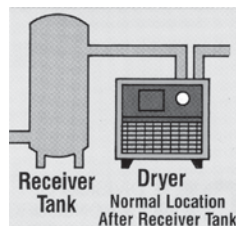

**2523J - \$99.95**

## ELIMINATE WATER!

### Where Water Comes From

The atmospheric air entering a compressor intake contains water vapor. Because of the effects of compression, most of this water vapor turns into troublesome liquid water in your air lines.

|        |                                    |                   |

| QPNC13 | 13 CFM 1PH 115V Refrigerated Dryer | <b>\$895.00</b>   |
| QPNC21 | 21 CFM 1PH 115V Refrigerated Dryer | <b>\$975.00</b>   |
| HPR50  | 50 CFM 1PH 115V Refrigerated Dryer | <b>\$1,575.00</b> |

## Quincy Gas Powered Compressor

**Now \$2,395.00! or Champion version available**

Heavy Duty 13HP Honda engine, 2 stage compressor, 23.6 CFM at 175 PSI!

**Model G213H30HCB**

### Quincy Gasoline Air Compressors

- Truck Bed Mountable, ideal for Field Service Applications
- Heavy Duty Two-Stage Compressors
- V-Belt Drive with Totally Enclosed Belt Guard
- Unloader for loadless start prolongs motor life
- Each new assembled unit comes with a 3-year limited warranty

### Improper Piping for Compressed Air

- PVC has a pressure rating but that is for water, not air!
- PVC pipes and fittings are intended for use in plumbing.
- Water under high pressure does not behave nearly as violently as compressed air does when the vessel in which they are contained breaks.
- PVC pipe and fittings, which can become very brittle after prolonged exposure to sunlight and cold temperatures, can rupture and shatter relatively easily when subjected to high-pressure compressed air, sending sharp pieces of shrapnel flying through the air.
- OSHA and Plastic Pipe and Fittings Association (PPFA), specifically warn against PVC and CPVC for compressed air in the general duty clause.

### Proper Piping for Compressed Air

- 100% aluminum for compressed air, copper ok as well.
- Aluminum offers excellent mechanical resistance to pressure and to impacts.
- The upgraded design of the new PPS1 aluminum fitting is more compact, lighter and more resistant.
- The aluminum alloy used, combined with epoxy paint on the outside and a treatment on the inside, protects the pipe against the risks of oxidation and corrosion.
- Simply insert the pipe into the fitting and then tighten the PPS1 fitting.

## McGee Company recommended reciprocating compressor maintenance

This guide is not designed to be a complete maintenance manual for all air compressors. Refer to manufacturer's manual for detailed instructions. If the unit is in an excessively dusty area, increase frequency of all checks! Always turn power off before servicing.

### DAILY CARE . . .

|  |
|--|
| Check for proper oil level                   |
| Drain any condensate from receiver and traps |
| Check for any unusual noise or vibration     |

### WEEKLY CARE . . .

|  |
|--|
| Clean air filter   |
| Clean all external parts of compressor and driver                    |
| Safety valve should be tested manually to see that it does not stick |

### MONTHLY CARE . . .

|   |
|---|
| Inspect entire air system for leaks                   |
| Inspect oil for contamination and change if necessary |
| Check belt tension and wear                           |

### EVERY SIX MONTHS . . .

|                          |
|--------------------------|
| Change Oil               |
| Inspect valve assemblies |

**Call 800-525-8888 today for details!**

**Detail maintenance chart available. Preventive maintenance programs available in Colorado.**

# CEMB TIRE CHANGERS AND BALANCERS

## ER72TD and SM628PA High Volume Equipment

The CEMB Digital Wheel Balancer ER72TD is made especially for busy tire shops. SM628PA is a professional grade swing arm tire changer for OEM and oversized tires and custom wheel applications.

- One Plane Balancing
- Auto Adaptive Mode and 3D Sensor
- Laser spotter and manual locking
- EMS sonar
- Max rim width 20", max rim dia. 30"
- Max tire dia. 42"
- 110/220V, 1ph, but air power option available
- Bead Press System w/table top clamping
- Two stage inflation with 2 speed high torque motor
- Rim dia. 12-26"
- Max tire dia. 44"
- Max wheel width 16"
- 220V, 1ph but air power option available

### SM628PA

**\$8395.00**

## DWA 1000/XLT HD Truck and Bus Aligner

**Call for demo and pricing!**

**CEMB**

ADAS calibration assistance available

CEMB's DWA 1000 total vehicle wheel alignment machine improves safety and driver comfort, reduces fuel consumption and tire wear. Comes fully assembled.

- 8 sensor CCD technology
- DSP processing
- PC computer, keyboard and storage cabinet standard
- Four shock resistant BT2 wireless rechargeable truck alignment heads with charging station standard
- Featherweight alignment heads. Only 7.5 lbs each
- Lithium ion batteries for long life
- MEMS static accelerometers provide the newest measuring technology
- 30" wheel clamping range (not rim diameter)
- Windows based software with multiple languages
- Complete vehicle and customer database for Heavy Duty truck with alignment specification 30 years
- Handles up to seven truck axles

## C212 Truck Balancer

**\$11,199.00**

- Fully automatic cycle with braking
- Includes all adapters from passenger to heavy duty truck
- Electro-pneumatic stationary brake
- Automatic distance and diameter input
- Shows static and dynamic unbalance
- Self-diagnosis and self-calibrating
- Built in pneumatic tire lift

## Professional Stitchers

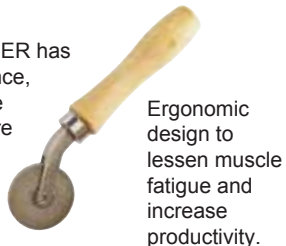

- Corrugated ball bearing stitcher with hardened steel wheel and varnished wooden handle

| Ascot No. | Part # | Description                  | Price         |
|-----------|--------|------------------------------|---------------|
| 536-00001 | 30     | 1-1/2" Diameter x 1/16" Face | <b>\$9.34</b> |

## Gooseneck Stitchers

The newly designed GOOSENECK STITCHER has been proven to enhance stitching performance, providing ample pressure at all points on the tire without causing muscle fatigue for the tire technician.

Ergonomic design to lessen muscle fatigue and increase productivity.

| Part No. | Description   | Price          |
|----------|---------------|----------------|
| 30GN     | 1-1/2" x 1/8" | <b>\$11.33</b> |
| 6005GN   | 2" x 1/4"     | <b>\$14.51</b> |

- This tool is a must for professional tire repairs
- Eliminates power buffing on many tire repairs
- Scraper removes material that might contaminate buffing wheels, ensuring a better repair every time

| Ascot #   | McGee No. | Blade Length                     | Price         |
|-----------|-----------|----------------------------------|---------------|
| 537-00004 | 933       | Black Handle Inner Liner Scraper | <b>\$7.80</b> |

## 1/4" Shaft Tool

- Larger spheres, tapers & rotor saw are excellent for high-tread skiving.
- Smaller spheres chamfer around injuries on liner; don't take a chance on entrapped air!
- For section repair or high-tread repairs on radial truck tires & hot repair on nail injuries for retreaders.

| Part # | Shape  | Diameter      | Coating      |
|--------|--------|---------------|--------------|
| RH603  | Sphere | 7/8" (22.2mm) | Coarse (330) |

## 2-1/2" All-Purpose Tire Buffing Wheel

- Our most popular wheel
- Covers more tire sizes than any other wheel
- Wide range of applications: Passenger/LT, Medium & Commercial Truck and Retreading

## 1-1/4" High Performance/Low Profile Tire Buffing Wheel

- Buff's inner liner of low-aspect tires without damaging the bead area
- Machined-steel construction for smooth operation
- Internal thread; no exposed threads at top
- Superb control and comfortable use
- Preferred by many for any passenger or light truck repair

| Part # | Diameter | Bore   | Coating      |
|--------|----------|--------|--------------|
| RH107  | 2-1/2"   | 3/8-24 | Fine (170)   |
| RH109  | 2-1/2"   | 3/8-24 | Medium (230) |

| Part # | Diameter | Bore   | Coating    |
|--------|----------|--------|------------|
| RH140  | 1-1/4"   | 3/8-24 | Fine (170) |

## Polyplugs-RH152 2 1/2" is most popular

- Compensates for mounting inaccuracies
- Improves wheel life
- Reduces vibration for smoother, quieter, more comfortable operation.

Don't forget to upgrade your Flared Contour Wheels with PolyPlug Inserts for an even better buffing experience!

## RUBBERHOG TIRE REPAIR

Rubberhog carbides have a coating of randomly spaced sharp uniform conical teeth made from a very hard tungsten carbide material. It is the combination of the sharpness of the teeth, with the uniform height and shape of the teeth, that gives the Rubberhog rasp a fast, cool, superior buff texture resulting in a longer rasp service life.

**\$122.<sup>99</sup>**

## 23450 HONDA/ACURA ADJ BALLJOINT

Use this sliding ball joint to adjust camber on the rear of the Acura MDX for improved handling and tire wear. The OE quality ball joint is easily installed and corrects camber angles  $\pm 3^\circ$ .

**Rear** Adjustment range:  
Camber  $\pm 3.00^\circ$

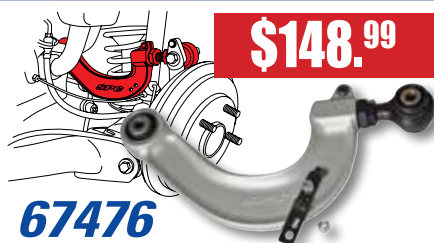

Required: 1 per wheel

### APPLICATIONS

**Acura:** 2014 & Up MDX

**Honda:** 2016 & Up Pilot

**Honda:** 2017 & Up Ridgeline

**\$148.<sup>99</sup>**

## 67476 CIVIC REAR CAMBER ARM

Get your late model ready for the street or track with SPC's forged aluminum adjustable rear camber arm. SPC forged aircraft grade aluminum arm weighs less than the OE arm it will replace. The arm is built with SPC's xAxis™ sealed flex joint to reduce compliance.

**Rear** Adjustment range:  
Camber  $\pm 3.00^\circ$

Installation time: .6 hr/side

Required: 1 per wheel

### APPLICATIONS

**Honda:** 2017 & Up CR-V  
2016 & Up Civic (Inc. Si & Type R)

67570

**\$99.<sup>99</sup>**

67580

**\$76.<sup>99</sup>**

## 67570/67580 HONDA REAR CAMBER ARM

These adjustable rear upper control arms deliver  $\pm 3^\circ$  of camber change. The arm has OE style ball joint and bushing making it an ideal piece for both collision repair and traditional wheel alignment needs.

**Rear** Adjustment range:  
Camber  $-2.00^\circ$  to  $+4.0^\circ$

Installation time: .5 hr/side

Required: 1 per wheel

### APPLICATIONS

**67570**

**Honda:** 2009 - 15 Pilot

**67580**

**Honda:** 2007 - 16 CR-V

## RAV4 2006-2018 ALIGNMENT PARTS 67806 ADJUSTABLE TOE ARM

Due to a factory recall for Toyota RAV4's, much of the third generation of this popular platform no longer has provisions for rear toe adjustment. Replace Toyota's non-adjustable rear arm with SPC's adjustable link and get the toe changes needed to avoid premature tire wear. SPC's R&R rear link provides  $\pm 3.0^\circ$  of toe change.

## 67810/67811 ADJ. CAMBER ARM

Adjust rear camber on late model RAV4 with this adjustable rear camber arm. With  $\pm 3^\circ$  of adjustment, this arm will get your vehicle back into factory specification for proper tire wear, handling, and ride quality. Use part #67810 for the right hand side or part #67811 for the left hand side.

## 81290 EZ CAM™

Make a two bolt strut adjustable up to  $\pm 1.75^\circ$  camber with the EZCam™. Simply remove the upper bolt, install the EZCam, loosen the lower bolt, and dial in the required change.

67806

**\$23.<sup>99</sup>**

Install time: .4 hr/side Req.: 1 per axle

### APPLICATIONS

**Toyota:** 2006 & Up RAV4/Highlander

## TOYOTA CAM BOLT KITS 25435/25440

These Cam Bolt Kits are a replacement kit for the OE adjusters. The OE bolts on Toyota trucks and SUV's are frequently "frozen" and do not allow for adjustment. Remove the frozen bolt assembly and replace it with an SPC cam kit to get up to  $\pm 1.50^\circ$  camber and caster change. OE adjuster assemblies that are severely corroded may require SPC's press tool 40915 for removal, making the job quick and easy.

25435

25440

**25435** **Front** Adj. range:  
Camber/Caster  $\pm 1.5^\circ$  Req.: 1 per wheel

**\$29.<sup>99</sup>**

## Hub-Centric Wheel Nuts - The Original! - High Quality - Skirt Nut

By filling the void between the stud hole, "clocking" is eliminated, and problems caused by clocking, such as wheel offs and wheel hub vibrations, are eliminated.

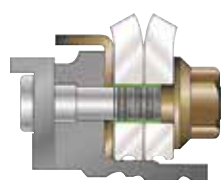

- Hub Centric Nut fills void standard flange nuts don't
- Stops rim from shifting forwards or backwards
- Eliminates "clocking" caused by standard wheel nuts not filling wheel hole completely
- Certified American Steel
- Each part tested for thread, fit and finish
- 50 per box

## Nut Loosener Penetrating Blaster - 16PB

A penetrating lubricant that frees everything! Displace moisture by saturating troubled area and allow to stand for a few minutes. 12.2 oz. spray.

#606 Oil Can  
**\$15.85**

**\$6.45 ea.**

## 3-Piece Twist Socket Lug Nut Removal System

- Removal of damaged 3/4" and 19mm, 13/16" and 21mm lug nuts
- Two dual-sided twist sockets have a fluted design which gives the sockets a tight grip to remove the most difficult locking and damaged lug nuts from the socket
- Works with 1/2" impact gun or breaker bar for service calls
- Includes an extrator punch

**\$59.77**

Due to global commodity price increases, shipping delays with container availability and getting through the ports, McGee Company cannot guarantee pricing or availability on items. We have done the best we can to increase stock to meet demand. For more info, see inside cover.

### Truck Wheel Dolly

- Easily handles new super wide tires that are becoming prevalent in the trucking industry.
- Provides technician with the leverage needed to handle the removal and installation of large tires
- Heavy duty tubular steel construction
- Bent handle design improves leverage and reduces user strain
- 14" rollers turn and pivot for accurate & efficient alignment of mounted truck tires with hub stud
- 26" wide carriage handles tire diameters 36"- 48"; 450 lb. capacity

BJT300A for 19.5-24.5" Wheels

### 3-1/2 Ton Professional Heavy Duty Double-Pumper Floor Jack

**Model 350SS - \$399.99**

This unit offers all the features of our model 350GT with additional speed and efficiency thanks to AFF's double-pumper advantage for quicker lifting.

- Lifts from 4" to 19-1/2"
- Pinned steel saddle (1-1/8" stud) with rubber pad for added vehicle protection
- Rear-mounted 2-3/4" swivel casters for ease of maneuverability
- One-piece 50-1/4" padded handle parks upright
- Ship weight 119 lbs.

Replacement Power unit **350SSKHU - \$141.56**

**Ask us about our no mar options!**

### 20-Ton 72090A

INTENDED USE: Heavy duty truck, agricultural and heavy construction equipment. Ideal for loaded truck and trailer roadside service calls.

- Its light weight makes it perfect for mobile repair service.
- Long handle with 36-1/2" reach helps in positioning jack under vehicles with low overhang.
- Parkerized coating on pump piston, extension screw and extension adapters and chrome coated ram offer protection against rust.
- Removable extension screw with two 4" extension adapters (included) for added height.
- Self-retracting ram eliminates manual lowering.
- 5 1/4" diameter high impact composite wheels make maneuverability easy.
- Fast efficient air pump reduces lifting time and has a built-in relief mechanism which prevents the jack from being used beyond its maximum allowable capacity.
- Convenient push button air valve connected to an in-line filter prohibits contaminants from entering the air/hydraulic system.

**ZN22 22-Ton.....\$178.32**

### 22 Ton Jack Stand 6522

- Sold individually, 22 ton capacity when used in pairs
- Ideal for supporting trucks, trailers and equipment in industrial, agricultural, construction and industrial work environments
- Large v-shaped saddle allows better contact with the load
- Pin style design provides maximum security even under the heaviest loads
- Adjusts to four positions from 12" to 20"

**\$199.99**

### 20 Ton Capacity Air/Hydraulic Super Duty Bottle Jack

- AFF's most innovative and robust air/hydraulic bottle jack to date
- Redesigned air motor
- Super thick base to increase stability on every surface
- High-strength Steel Ram and cylinder with long ram guide for greater safety in off-center load conditions
- Welded Tank (threaded and screwed to the base) endures the rigors of in-service conditions and reduces risk of tilting out of the oil reservoir

## 30251005 10-Ton High Jack Stands (pair)

- Pin-style stands with supporting range from 27.95" to 47.56" suitable for high-height applications
- HD tubular steel design provides stability and rigidity
- Multiple pin holes to allow easy adjustments
- Saddle with lugs for easy positioning of the load

**\$387.99**

## 22-Ton Jack Stands

- Sturdy, welded steel construction for exceptional safety and strength
- Heavy gauge steel helps prevent distortion or twisting
- Multi-position column bar for convenient height adjustment
- Sold in set of two

**30263220 \$234.99**

## 20-Ton Air Bottle Jack

- Welded cylinder and reservoir for added strength and durability
- Chrome plated rams to resist rust and wear
- Built in bypass device to protect hydraulic system from over-pumping damage
- Self-returning spring for ease of operation
- Built-in muffler to promote quiet operation and air filter for extended motor life
- High speed turbo motor for efficient, effortless operation
- 1/4" quick connect feature allows for ease of mobility and remote operation

- True "low-profile" design with deep reach and minimum 2.75" height for low clearance vehicles
- Universal joint mechanism
- Foam handle for vehicle protection
- Industrial grade casters for easy transport
- Safety bypass system for cylinder protection
- 24" max height for increased work space

**30262021 \$299.99 Low profile design!**

## Heavy Duty Truck Lock

### FLEET OWNERS AND OPERATORS:

### Wheel & tire theft is one thing you can't afford

For less than the cost of one tire, you can protect a complete Tractor and Trailer and avoid:

- Increased insurance costs
- Scheduling and delivery delays
- Additional expenses for downtime
- thousands of dollars in stolen equipment
- Loss of perishable load
- Lost business
- Possible vehicle damage

### Your answer to around the clock wheel & tire security is McGard

Wheel locks are easy to install and very effective as a theft deterrent. Simply replace one lug on each wheel for disc styles, and two for spoke. There are no moving parts to corrode or jam. Each lock has a specially coded pattern milled into it that engages with the corresponding pattern on the key/adaptor tool. McGard offers a wide range of key patterns for added security and your fleet's pattern will be registered with us to make ordering additional locks or keys quick & easy.

## Split-Beam Click Torque Wrenches

**PRECISION INSTRUMENTS**

- Extremely accurate: within 4% of reading from 20% of full scale to full scale
- Setting torque on adjustable wrenches is fast and easy because there is no spring tension on the adjustment knob
- Torque setting locks on adjustable wrenches for repetitive applications
- Wrench length designed to provide the leverage required for maximum torque applications. Also provides the needed reach for those hard to get at places.

EXTREMELY ACCURATE

## TIRE INFLATION SYSTEMS

Used with AB100

Auto Inflators save time and money. Proper inflation creates longer tire wear and increased fuel mileage. These self-calibrating units are accurate to +/- .03 psi. Can be used as a reference point to calibrate hand held gauges.

Allows remote control of the inflation process, allowing the technician to avoid the "blast zone" during inflation.

**Let us design a custom installation for your shop**

Used with AB200

**FLEET SOLUTIONS FROM  
McGEE COMPANY**

Machine Year Month Day

Snap-in tire valves have become a commodity even though they are critical in maintaining the correct tire pressure. As questions arise regarding the life of rubber components and as an effort to provide traceability for this product line, Dill provides a solution! Each Dill stem has the production data etched on it!

**Chrome-Sleeve Snap-in Type Tubeless Tire Valves**

**Now! Economical Asian stems TR413IV – \$.17 ea.**

**TR418IV - \$.31 ea.**

**High Pressure Snap-In Valves — Dill OE**

- Tubeless snap-in type valves for high pressure applications
- Maximum cold inflation pressure is 100 psi
- For .453" or .625" rim holes
- Do not use on tire rims that exceed .205" in thickness

|-----------|----------|-----------------------------|
| 462-01147 | N1147    | Radial Commander Valve Dill |

**Quality**

Quality snap-in valve stems are made with EPDM synthetic rubber rather than natural rubber to meet SAE ozone requirements. EPDM rubber also has a broader temperature range than natural rubber and will remain flexible in extremely cold weather.

Good quality valve stems conform to SAE J1205 - J1206 standards setting performance criteria for heat resistance, aging and ozone resistance

Weathered Valve

**Caution: For maximum rim thickness of .205 (13/64"). Not to be used with metal valve extensions.**

Maximum air pressure 80 psi. Light truck replacement valve.

**Enkei Valves**

- A high performance "No Show" type chrome plated valve that installs from the outside
- A rubber washer and nut are on the inside
- Fits .453" diameter hole

- End discharge with flared barrel
- Equipped with a butterfly valve for maximum air discharge
- Designed for commercial use on large truck tires, passenger and ATV tires to 24.5"
- Made in Taiwan

RPG05GALED

## 5-Gallon Cheetah Bead Seater

473-00500 CH5

- Makes seating the most difficult bead safe, simple
- 5-gallon capacity
- Designed for commercial use on large truck tires, passenger and ATV tires to 24.5"
- Fill tank from any service station chuck or service truck air compressor
- Made in Taiwan

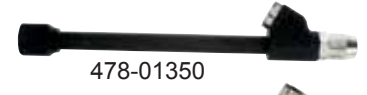

\$179.95

## Dual Foot Air Chucks

| Ascot No. | McGee No. | Description  | Price   |

\$12.00

## Closed vs Open Air Chucks

Did you know?

Closed air chucks are used for multi-tire inflators and nitrogen generators since air flow begins with contact to the valve core.

Open air chucks are used for inflation gauges and tire changers since air flow is controlled before reaching the chuck.

| Ascot No. | McGee No. | Description                              | Finish  | Price          |

## PREVOST 1/4"

### Automotive Style Couplers

- One hand push button design - red
- Fits all 1/4" automotive style adapters
- Longer lasting

Constructed of high impact tough composite material. Smooth finish will not scratch and will not hang up like traditional couplers. Press the button and the downstream air releases, and when the coupler is discharged it automatically releases adapter or hose, preventing dangerous hose whip. Use with any automotive nipple. Industrial use with 513811, 513911, and 11E.

## DILL Commercial Truck Tire Valves

- Parts are individually date coded for traceability
- Grommets are high temperature verified and ozone resistant
- 570 series valves are made with 7/32" hex for easy installation
- OEM Approved
- EQ series (Viton o-ring-high temp) are made with 14mm hex to prevent spinning during torque process
- 550 series valves are designed with a screwdriver slot for easy installation
- Many truck valves are made with USA grommets and o-rings

## Metric Clamp-In Valves - 550 Series Popular on all new Alcoa wheels!

Compatible with aluminum wheel designs with .389 valve hole.

- Viton grommets offer a greater temperature range, a better seal, and a longer service life — Maximum temperature 250°
- Easier installation with screwdriver slot.
- Recommend installation torque 45 in - lbs.

## Tire Valves - 540 Series

O-ring seal valves for Alcoa truck wheel (9.7MM Valve Hole)

Many production Alcoa aluminum wheels are manufactured with a 9.7MM valve hole that requires an O-Ring tire valve. Valves have a high temperature resistant O-Ring and a heavy duty metal valve cap.

## REDI-Sensor™

### Simple and Accurate

#### REDI-SENSOR MULTI-APPLICATION SENSOR

- Installs right out of the box • No programming required, saving you 8-10 minutes per vehicle
- Reduces replacement sensor inventory
- Adjustable valve stem design • Fits over 90% of the market • No additional training required • All REDI-Sensors are available in a rubber stem format

#### WORKS WITH EXISTING MAJOR TPMS SCAN TOOLS:

If a shop has the tools to handle OE sensors, it's ready for REDI-Sensor. Unlike other sensors that require the purchase of specialized tools and software upgrades, no additional purchases, training or investments are needed with REDI-Sensor.

| McGee No. | Description  | Price          | Ascot No. |
|-----------|--|----------------|-----------|
| 7001HP    | 315MHz REDI-Sensor Multi-Application Sensor (Clamp-In Style)       | <b>\$33.14</b> | 461-07001 |
| 7002A     | 315 MHz REDI-Sensor for Honda, Hyundai, Kia, Lexus, Toyota & Scion | <b>\$34.57</b> | 461-07002 |
| 7003A     | 315MHz REDI-Sensor Multi-Application Sensor (Clamp-In Style)       | <b>\$34.57</b> | 461-07003 |
| 7004      | 433MHz REDI-Sensor Multi-Application Sensor (Clamp-In Style)       | <b>\$34.57</b> | 461-07004 |
| 7001HP-R  | 315MHz REDI-Sensor Multi-Application Sensor (Snap-In Style)        | <b>\$33.14</b> | 461-07011 |
| 5001R     | 433MHz Multi-Application Sensor (Clamp-In Style)                   | <b>\$34.29</b> |           |

### TPMS Profit Center

Remember, replacing the TPMS valve stem (snap-in rubber or clamp-in aluminum) or the TPMS service kit with each tire sale is done for the same reasons a traditional TR-413 snap-in is replaced with each new tire.

More information at [mcgeecompany.com/stems](http://mcgeecompany.com/stems)

**TPC**  
**\$174.99**

### How much money are you leaving on the table by not doing TPMS?

|                          | TR413 Valve Stem   | TPMS Rebuild 9066k  |
|--------------------------|--------------------|---------------------|
| ASSUMPTIONS              | 100 Tires per Week | 100 Tires per Week  |
| <b>Cost to WD</b>        | \$ 0.29            | \$ 4.03             |
| Sell price               | \$ 1.90            | \$ 8.95             |
| Profit per tire          | \$ 1.61            | \$ 4.92             |
| Weekly profit            | \$ 161.00          | \$ 492.00           |
| Annual profit (52 weeks) | <b>\$ 8,372.00</b> | <b>\$ 25,584.00</b> |

A shop doing **TPMS** makes over **three** times the amount doing TPMS versus valves alone in addition to pushing their customers to a competitor. **Be TPMS smart**; let McGee Company train you and set you up with the tools to be successful.

## EZ-sensor™

Innovation by Schrader®

### ATEQ

#### S41 & S56 tools both:

- Relearn and read all sensors, regardless of manufacturer displaying all sensor data
- Indicate OE sensor/service kit part numbers
- ECU relearn procedures, has OBDII cable, unlocks Toyota ECU
- Allows manual sensor ID entry or program sensors by wheel set (5)
- Test remote key and have LCD displays

#### S56 tool only

- Read DTCs, programs other brands of sensors, has Wifi, can program sensors from historical data, and has VIN barcode scanner

Bulk Discounts Available

Covers both 315 and 433 Mhz

Mix 33900 EZ sensor with the stem you need!

- 25078 90 deg. valve in silver/gray
- 25080 straight valve in silver/gray
- 25082 90 deg. valve in matte black
- 25083 straight valve in matte black

S56

**33700**

Adjustable Angle Aluminum Clamp-In

Designed to eliminate multiple sensors required for TPMS work

#### APPLICATIONS:

Covers most GM, Chrysler, Honda, Nissan, Toyota, Lexus, Scion, Ford, Lincoln, & Mercury vehicles and some Mitsubishi, Subaru & Suzuki vehicles • Fully programmable • Compatible with Bartec, Schrader and SPX/OTC programming tools • Sensor features Wireless Auto Locate or WAL that allows the vehicle's TPMS system to locate and identify each TPMS sensor's specific location

### WHY SCHRADER?

Schrader is the leading global manufacturer of tire pressure monitoring systems (TPMS) for automotive, heavy-duty and off-road vehicles. Schrader is a pioneer in TPMS, a vehicle safety feature that is now standard on all cars and light trucks sold in the U.S.

#### OE MANUFACTURER

- First to market with new coverage
- Defect Allotment of 4 parts per million
- Extensive testing to guarantee quality

#### GLOBAL MARKET-LEADER

- Over 250 dedicated engineers
- Over 750 million sensors sold
- Frost & Sullivan award winning

#### TPMS PARTNER OF CHOICE

- TIA certified team
- Training and marketing support
- Partners with leading TPMS tool manufacturers

More than just a supplier, we are a TPMS partner!

### 2017 - 2020 Ford F350 DRW

Relearn: Triggering tool required\*

All Sensors\*: 9291

## ITS600 TPMS, Diagnostics, and Tire Service Tool

- Activates, reads and relearns all known sensors
- OBDII relearn for most vehicles with 99% coverage of OE sensors
- Copy By OBD sensor programming & four MX-Sensor program modes; batch program up to 20 MX-Sensors
- Includes wireless Bluetooth vehicle communication interface (VCI)
- Tire pressure placard value reset
- Read/Clear TPMS system codes & view live data
- Free Wi-Fi software updates for the life of the tool

ProUpgrade \$120

- Rapid VIN acquisition via optical VINScan
- QR Code Scan / Barcode Scan, Plate scan, Auto VIN detect and manual input
- Identify MMY and sensor OE part number via VIN decoding

### Integrate with the TBE200 for:

- Precise laser measurement of tread depth & brake disc wear
- Create comprehensive Test Report w/TPMS health, Tread depth, brake disc wear characteristics, & Repair tips

TBE200 \$489.99

TBE in action

**\$799.00** Bundle with 12 sensors only

**MaxiTPMS<sup>®</sup>**  
**ITS600K12**

**AUTEL<sup>®</sup>**

**Sick of your technicians not being able to read tire DOT codes or read what they wrote down?**

**ITS600 is the first tool to scan DOT numbers for expiration and recall lookup!**

### DIAGNOSTICS & SERVICE

- Oil light reset
- Electronic brake service
- Battery registration
- Steering angle reset
- Included service function updates are free for the life of the tool
- All systems diagnostics and maintenance services software available with Pro Upgrade purchase

## AUTEL MX-SENSOR PROGRAMMABLE UNIVERSAL TPMS SINGLE SENSOR

- Combines 315MHz & 433MHz frequencies into a single sensor
- 98% vehicle coverage • The exclusive MX-Sensor patented PRESS release valve allows rubber and metal valve stems to freely interchange by hand without requiring a tool
- Built to match or exceed OEM sensors in frequency strength and durability
- 100% ID cloneable with no relearn required • Quickly update during installation with an Autel wireless programming tool

**Qty discounts available!**

## FREE SOFTWARE UPDATES

Quick Mode

### BASIC FUNCTIONS

**EASY & FAST**

- Activate All Known TPMS Sensors
- Read Sensor ID, Temperature, Pressure
- Read Sensor Battery Condition
- On-Tool OE Sensor Information
- Program MX-Sensor With 3 Programming Options
- Batch Program 1-16 MX-Sensors

**\$360\***

**MaxiTPMS<sup>®</sup>**  
**TS508K12**

- 1 - Autel TS508 Complete TPMS Tool
- 4 - Metal Valve Stems
- 12 - 1Sensor TPMS Programmable Sensors

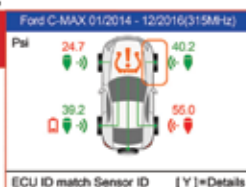

Advanced Mode

### COMPLETE FUNCTIONS

**POWERFUL**

- Same TPMS Features as Quick Mode
- TPMS Status Screen - View System Faults
- Read & Clear TPMS DTCs
- On-Tool DTCs Description
- Program MX-Sensors by Copying ECU Sensor IDs
- On-Tool Relearn Procedure Guide
- Widest Vehicle Coverage For OBD Relearn
- Tire Pressure Placard Value Reset

## AUTEL TPMS TOOL

- The MaxiTPMS<sup>®</sup> TS508 is a new generation TPMS diagnostic & service tool specially designed to activate all known TPMS sensors, read TPMS sensor status, check TPMS system health condition, program MX-sensors and conduct TPMS relearn
- With Quick Mode and Advanced Mode options, you can save time and energy by choosing the most suitable way to complete TPMS work

TS508

## MC Series fits more U.S. vehicles than any other weight!

## "MCN" Series- Wheel Protectors® Coated

The "MCN" series is the recommended weight for all applications shown below. The "MCN" meets all OEM quality specifications.

## "MC" Series-Uncoated

Fits most Chrysler, GM, Ford since 1990, Fiat

We recommend that coated weights be used on all vehicles having alloy wheels.

"MCN" Coated—25 pc. box. "MC" Uncoated—50 pc. box

## Wheel Cleaner

Stop Using Expensive Wheel Cleaning Solutions

A clean wheel is critical to good stick-on wheel weight adhesive.

- Water-Based
- Non-Petroleum
- Biodegradable
- Non-Toxic

## A Note About Today's Wheels

For environmental reasons the car manufacturers recently started using water-based paint on wheels.

Unfortunately, those paints have an adverse effect on the adherence of wheel weights. The special formulation assures optimal adherence even on surfaces coated with water-based paint.

| 486-31281 | WWR3      | Adhesive Wheel Weight Roll Stand |

## "TS" Series

CHEVROLET GMC - Use on full size pickup, Suburban, Yukon, Tahoe from 2000. Denali & Escalade use MCS for 2000  
FORD - Expeditions from 1997 - F-100, F-150 from 1997  
LINCOLN - Navigator from 1998

We recommend the use of TS series weights on all full size pickup trucks and vans equipped with steel wheels. The use of "REG" series passenger weights on thicker truck rims may cause over-stressing of clips resulting in weight failures.

| Part. No. | Weight  |
|-----------|---------|
| TS025     | .25 oz  |
| TS050     | .5 oz   |

## "TAL" Series Wheel Protectors® Coated Wheel Weights

A new special weight for all Alcoa and Accuride (from 1983) aluminum tubeless heavy truck wheels. The weights will fit both sides of the wheel. These new weights replace the "OS-TAL" and "DS-TAL" series. Use rim gauge RGT2 to verify correct application (either OS-TAL or DS-TAL slot).

"TAL" Coated

| Part. No. | Weight  |
|-----------|---------|
| TAL030    | 3.0 oz. |
| TAL040    | 4.0 oz. |
| TAL060    | 6.0 oz. |
| TAL080    | 8.0 oz. |

## Wheel Weight Adhesive Removal Tool

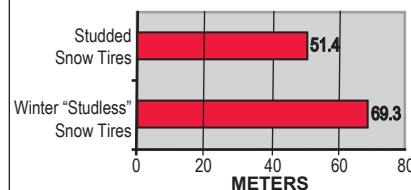

**A143252 - \$67.99**  
**Replacement pad - A1432526 only - \$6.99**

- Lock-off trigger for added safety
- High torque motor to cut through stubborn wheel weight adhesive, body pinstripes, etc.
- Rubber-insulated housing for comfort
- High RPM to prevent pad from bogging down; 3,700 RPM free speed

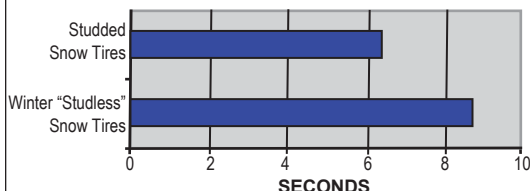

## Why studded tires are the best choice for winter driving!

**Braking distance on Icy Road - (from 31 mph) Average calculated at different temps**

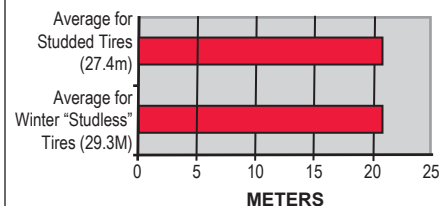

35% BETTER THAN 'STUDLESS' WINTER TIRES

**Acceleration on Ice (seconds from 3 to 12 mph) Average calculated at different temps**

STUDDED TIRES 36% BETTER THAN WINTER "STUDLESS" SNOW TIRES

**Dry Asphalt Braking distance 77 MPH to 0 MPH Finnish Tekniikan**

## Stud Gun, Studding Equipment

| ASCOT NO. | MFG. NO. | DESCRIPTION   |
|-----------|----------|---|
| 458-00010 | 10G      | <b>Stud Gun.</b> Standard of the Industry. Automatic. Light weight.   |
| 458-00002 | KFP2     | <b>Stud Feeder.</b> Fully automatic with 110 Volt motor, fast loading. Provides positive stud orientation. Feeds up to 225 studs per minute.        |
| 458-04048 | 4048     | <b>Feederboy Stud Gun.</b> Designed for fast feeding studs of the AS-9 Gun. Attaches with screw clamp. Operates by manually turning the feeder cap. |
| 458-00005 | K5       | <b>Stud Feeder.</b> INCLUDES: Shield for gun. Welded steel construction with saddle.  |
| 458-00500 | K500     | <b>Studding Equipment Kit.</b> INCLUDES: K-5 stand, AS-9 gun, KFP2 automatic stud feeder.   |

## Ugigrip®, Self-Adjusting Carbide Tire Stud

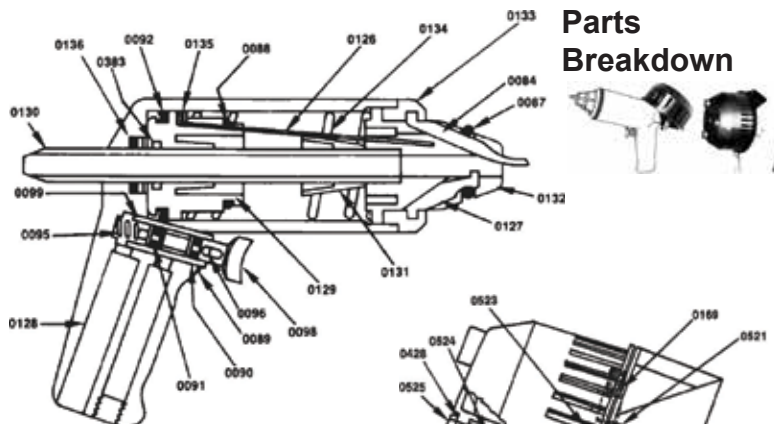

- Delivers full-time traction, increases the safety, convenience and security.
- To order studs to best fit your customers' tire, use the TSMI number recommended by the tire manufacturer

Chain 'Em Up is a HD, non-skid, drive on/off ramp with safety features that will shorten your chain up time to one simple step and allow you to accomplish chaining up in just minutes!

**LARGE WEIGHT CAPACITY**  
Tested to support maximum truck and cargo loads.

**VERSATILE UTILITY TOOL**  
Great for any maintenance on elevated tires, quicker and easier than a jack.

**LIGHT WEIGHT**  
Easy to carry and maneuver.

**STRONG AND DURABLE**  
High-impact plastic.

**4" LIFT HEIGHT**  
Heavy-Duty Non-Skid Traction.

# CHAIN 'EM UP

**\$99.95**  
each ramp  
#Ramp1

Featuring advanced engineering and durable, high-impact plastic to support CMV weights while still being light-weight.

**INSTALLING CHAINS ON TIRES THAT ARE ELEVATED IS JUST EASIER – PURE AND SIMPLE!**

Largest stock of tire chains in the Rocky Mountain Area!

# Traction Laws in Colorado and California!

## CALIFORNIA

California Alternative Traction Devices (ATD)-Section 1070-1074-Title 13 California code of regulations. As of July 1, 2019, the California Highway Patrol (CHP) new regulations require all ATD to prove they can exceed or equal the performance of approved metal traction devices in all aspects of traction. The specifics of the traction requirements are outlined in the new regulation and follow the ÖNORM Austrian standards for traction devices. AutoSock® meets the ÖNORM standards and each pair of AutoSock® are the only textile ATD labelled as required in California with the ÖNORM symbol of compliance. AutoSock® can be used instead of tire chains in California.

## COLORADO

House Bill 19-1207 changes the game in Colorado for passenger vehicles. Starting August 2, 2019, the legislation updated requirements for drivers using state highways during winter months. Specifically, it changed the required minimum tire tread for vehicles on snowy roads to 3/16 of an inch. The law reaffirms the department's ability to close state highways during inclement weather, and requires any motor vehicles to have one or more of the following:

- Tire chains
- A CDOT approved alternative traction device like AutoSock®
- Four-wheel drive with adequate tire tread
- All-wheel drive with adequate tread and/or
- Tires with manufacturer marking for snow/mud and adequate tread

ÖNORM symbols

**Be wary of textile traction devices that don't have the ÖNORM label and are not approved for use in all States!**

## AutoSock has the OE Approvals!

Why sell or use **AutoSock**?

- ⊕ OE trusted & approved by name
- ⊕ The original ATD pioneered by textile scientists
- ⊕ Fewer SKUs than the competition
- ⊕ Faster/easier to put on than chains
- ⊕ Multilayered design for durability & wear indications
- ⊕ Approval all the way through six axel vehicles throughout the US

AutoSock is mentioned by name in the above OE manuals.

**AutoSock** is approved by leading international car manufacturers.

Showroom displays  
for the floor or  
counter available!

**DISTRIBUTORS  
WANTED**

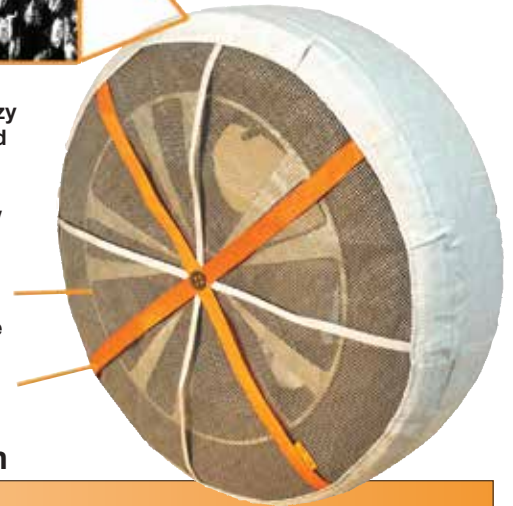

A specially designed surface  
pattern that makes the total  
contact area exposed to dry  
friction as large as possible.

- ⊕ Less weight than chains
- ⊕ No damage to vehicle
- ⊕ No climbing under vehicles to grab broken chains
- ⊕ Great for low wheel clearance vehicles
- ⊕ Faster to put on, less than 5 minutes!

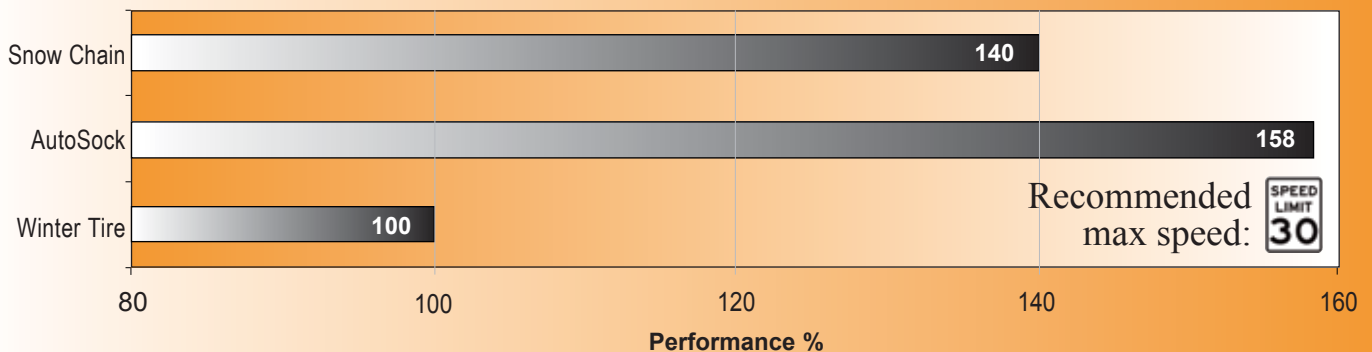

AutoSock® gets fuzzy  
“hairs” between and  
at the contact areas  
in order to increase  
the friction on snow  
and ice.

Mesh keeps snow  
out of the tread and  
wheel well while the  
orange straps help  
with centering and  
easy removal.

## Colorado DOT demonstration

### AutoSock for Passenger Cars - Max. Traction Force on Snow

DATE: Dec 06 2007

AIR TEMP.: -7°C/25°F

TIRE SIZE: 205/55 R16

INFLATION FA: 3.0 bar

TEST VEHICLE: Pontiac FWD

LOCATION: Loveland Pass

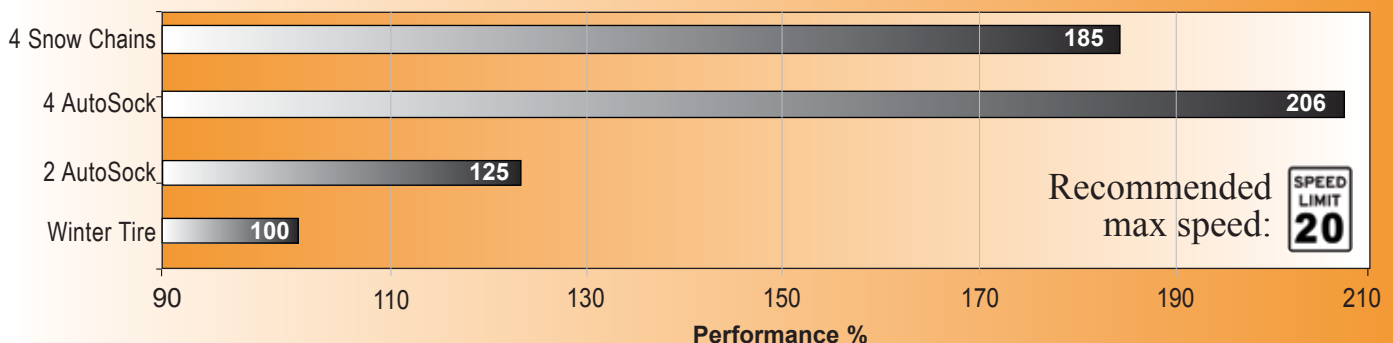

CONDIT.: Dry snow, cloudy

ABS: on

INFLATION RA: 3.0 bar

TEST SURFACE: Packed Snow

### AutoSock for Truck - Max. Traction Force on Snow

DATE: Dec 06 2007

AIR TEMP.: -7°C/25°F

TIRE SIZE: 295/70 R22.5

INFLATION FA: 8.0 bar

TEST VEHICLE: Peterbilt

LOCATION: Loveland Pass

CONDIT.: Dry snow, cloudy

ABS: on

INFLATION RA: 8.0 bar

TEST SURFACE: Packed Snow

**Branick Strut Spring Compressor**

The new Model 7600 has all the features you expect from Branick and more. It's the new answer for all your strut work.

The 7600 can handle the heaviest coil-over-shocks, the Ford F-150 and even the Toyota RAV-4 without need for additional adaptors.

Extra long springs? Bring 'em on! Long, short, narrow or angled, the 7600 will easily do the job! And we're listening too... We opened up the front for easier access and added longer handles for extra torque. We also have an optimal benchmount and mobile cart.
