Brake Thickness Gauge

NS3218P - \$17.99

- Quickly and easily determine the remaining thickness of a vehicle's brake pads without removing any wheel components
- Color coded gauge determines if the brake pads need to be replaced
- 11mm or more - Green, no replacement necessary
 - » 8mm to 10mm - Yellow, suggest replacement soon
 - » 0mm to 8mm - Red, recommend replacement
- User is able to measure distance with one motion of aligning the gauge and press to measure

NS3218P

MA2312G

- McGee 1/2" Drive rubber grip 2" extended anvil impact wrench.
- 8,000 RPM
- 600 ft/lbs torque
- Twin handle mechanism

ITS600 TPMS, Diagnostics, and Tire Service Tool

- Activates, reads and relearns all known sensors
- OBDII relearn for most vehicles with 99% coverage of OE sensors
- Copy By OBD sensor programming & four MX-Sensor program modes; batch program up to 20 MX-Sensors
- Includes wireless Bluetooth vehicle communication interface (VCI)
- Tire pressure placard value reset
- Read/Clear TPMS system codes & view live data
- Free Wi-Fi software updates for the life of the tool

Free TBE200 while supplies last!
ProUpgrade \$120

- Rapid VIN acquisition via optical VINScan
- QR Code Scan / Barcode Scan, Plate scan, Auto VIN detect and manual input
- Identify MMY and sensor OE part number via VIN decoding

TBE in action

Integrate with the TBE200 for:

- Precise laser measurement of tread depth & brake disc wear
- Create comprehensive Test Report w/ TPMS health, Tread depth, brake disc wear characteristics, & Repair tips

TBE200 \$449.99

Ask us about our competitor tool trade up program

\$799.00 Bundle with 12 sensors only*

*Tool sold separately as well

46130100 - PRE-PROGRAMMED TESLA BLUETOOTH TPMS SENSOR

- The MX-Sensor BLE is a pre-programmed Bluetooth Low Energy (BLE) sensor that offers "fit & go" capability for:

- Tesla Model 3 2021-2023
- Tesla Model S 2021-2023
- Tesla Model X 2021-2023
- Tesla Model Y 2020-2023

- All Tesla models older than the years above use our standard Ascot by Autel MX Sensor 1-Sensor
- Built to meet or exceed industry standards and tested to endure extreme temperatures, the MX-Sensor BLE is also programmable with Autel tools for the latest BLE-equipped vehicles
- The MX-Sensor BLE is warranted for two years

NEW

\$49.99

AUTEL MX-SENSOR PROGRAMMABLE UNIVERSAL TPMS SINGLE SENSOR

Metal stems available in Black, Titanium, Chrome, & Rubber

- Combines 315MHz & 433MHz frequencies into a single sensor • 98% vehicle coverage • The exclusive MX-Sensor patented PRESS release valve allows rubber and metal valve stems to freely interchange by hand without requiring a tool • Built to match or exceed OEM sensors in frequency strength and durability
- 100% ID cloneable with no relearn required • Quickly update during installation with an Autel wireless programming tool

Qty discounts available!

How much money are you leaving on the table by not doing TPMS?

ASSUMPTIONS	TR413 Valve Stem	TPMS Rebuild 9066k
	100 Tires per Week	100 Tires per Week
Cost to WD	\$ 0.29	\$ 4.03
Sell price	\$ 1.90	\$ 8.95
Profit per tire	\$ 1.61	\$ 4.92
Weekly profit	\$ 161.00	\$ 492.00
Annual profit (52 weeks)	\$ 8,372.00	\$ 25,584.00

A shop doing TPMS makes over **three** times the amount doing TPMS versus valves alone in addition to pushing their customers to a competitor. **Be TPMS smart**; let McGee Company train you and set you up with the tools to be successful.

REDI-Sensor™

Simple and Accurate REDI-SENSOR MULTI-APPLICATION SENSOR

- Installs right out of the box • No programming required, saving you 8-10 minutes per vehicle • Reduces replacement sensor inventory • Adjustable valve stem design • Fits over 90% of the market • No additional training required • All REDI-Sensors are available in a rubber stem format

WORKS WITH EXISTING MAJOR TPMS SCAN TOOLS:

If a shop has the tools to handle OE sensors, it's ready for REDI-Sensor. Unlike other sensors that require the purchase of specialized tools and software upgrades, no additional purchases, training or investments are needed with REDI-Sensor.

Aluminum body Rema version available

Manual Tire Spreader MS1 - 64.99

HD CP Low Speed Buffer CP873HDES (Extended shaft) and CP873HD available!

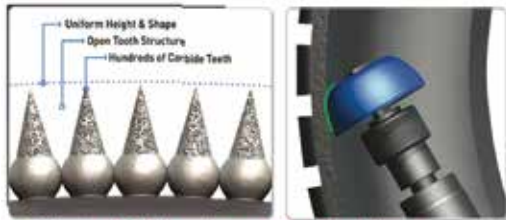

- Composite material and light weight
- Easy and comfortable to use, reducing constraints for the operator
- The buffing wheel is equipped 7/16" hexagonal quick change slip chuck
- Reinforced streamline & lock-off safety lever
- Heavy duty version : have air swivel inlet for more comfort
- Great for retreading and commercial application

RUBBERHOG TIRE REPAIR

Rubberhog carbides have a coating of randomly spaced sharp uniform conical teeth made from a very hard tungsten

carbide material. It is the combination of the sharpness of the teeth, with the uniform height and shape of the teeth, that gives the Rubberhog rasp a fast, cool, superior buff texture resulting in a longer rasp service life.

S&S Structured Carbide coatings and unique flared shape maximizes contact, producing a flat, level buffed surface!

Low Speed Tire Buffer with Quick Change Slip Chuck

15810873 - \$86.98

- Brass bushings provide performance and durability in tough working conditions
- Includes whip hose and exhaust hose
- Built in regulator
- Lock off throttle to prevent accidental start ups
- Rear exhaust directs air away from work area
- Quick change slip chuck for fast and easy change of buffing wheel
- Ideal for patchwork, roughing areas for recapping and cleaning tire moldings
- Equivalent to and has same dynamics as the CP 873k
- Overhose kit also available 175-00873

Overhose Kit & Connections

Polyplugs-RH152 2 1/2" is most popular

- Compensates for mounting inaccuracies
- Improves wheel life
- Reduces vibration for smoother, quieter, more comfortable operation.

Don't forget to upgrade your Flared Contour Wheels with PolyPlug Inserts for an even better buffing experience!

2-1/2" All-Purpose Tire Buffing Wheel

- Our most popular wheel
- Covers more tire sizes than any other wheel
- Wide range of applications: Passenger/LT, Medium & Commercial Truck and Retreading

Part #	Diameter	Bore	Coating
RH107	2-1/2"	3/8-24	Fine (170)
RH109	2-1/2"	3/8-24	Medium (230)

1-1/4" High Performance/Low Profile Tire Buffing Wheel

- Buffs inner liner of low-aspect tires without damaging the bead area
- Machined-steel construction for smooth operation
- Internal thread; no exposed threads at top
- Superb control and comfortable use
- Preferred by many for any passenger or light truck repair

Part #	Diameter	Bore	Coating
RH140	1-1/4"	3/8-24	Fine (170)

1/4" Shaft Tool

- Larger spheres, tapers & rotor saw are excellent for high-tread skiving.
- Smaller spheres chamfer around injuries on liner; don't take a chance on entrapped air!
- For section repair or high-tread repairs on radial truck tires & hot repair on nail injuries for retreaders.

Part #	Shape	Diameter	Coating
RH603	Sphere	7/8" (22.2mm)	Coarse (330)

Wheel Cleaner

Stop Using Expensive Wheel Cleaning Solutions

Ascot No.	Description	Price
48675032	Wheel Cleaner 32 Oz. Spray Bottle	\$8.75
48675017	Wheel Cleaner 1 Gallon Bottle	\$14.95

A clean wheel is critical to good stick-on wheel weight adhesive.

- Water-Based
- Biodegradable
- Non-Petroleum
- Non-Toxic

A Note About Today's Wheels

For environmental reasons the car manufacturers recently started using water-based paint on wheels. Unfortunately, those paints have an adverse effect on the adherence of wheel weights. The special formulation assures optimal adherence even on surfaces coated with water-based paint.

MC Series fits more U.S. vehicles than any other weight!

"MCN" Series- Wheel Protectors® Coated

The "MCN" series is the recommended weight for all applications shown below. The "MCN" meets all OEM quality specifications.

"MC" Series-Uncoated

Fits most Chrysler, GM, Ford since 1990, Fiat

We recommend that coated weights be used on all vehicles having alloy wheels.

"MCN" Coated—25 pc. box. "MC" Uncoated—50 pc. box

AUDI	LAND ROVER
BMW	MINI
CATERA	MITSUBISHI (see chart)
GEO	SMART CAR
HYUNDAI	SUBARU
JAGUAR	SUZUKI
KIA	VOLVO

AUDI	From 1997
HONDA	
& ACURA	All from 1980 to 1989
MERCEDES	
VW	

Also used on many aftermarket alloy wheels with thin rim flanges

"I7" Series

BTLM = I7

Most popular weight for the medium-duty truck. Used on most trucks with tube type tires. 25 per box except 10 & 12 oz.; 20/box & 14 & 16 oz.; 10/box.

Part. No.	Weight	Part. No.	Weight
I71	1.0 oz.	I78	8.0 oz.
I72	2.0 oz.	I710	10.0 oz.
I73	3.0 oz.	I712	12.0 oz.
I74	4.0 oz.	I714	14.0 oz.
I75	5.0 oz.	I716	16.0 oz.
I76	6.0 oz.		

CT

BTLT + I9 = CT

Used on "section" type, straight flange, tubeless wheels, Goodyear Super Single; Budd 7.50" and 8.25" wheels with Firestone or Goodyear discs. Uncoated.

Part. No.	Weight	Part. No.	Weight
CT2	2.0 oz.	CT10	10.0 oz.
CT3	3.0 oz.	CT12	12.0 oz.
CT4	4.0 oz.	CT14	14.0 oz.
CT6	6.0 oz.	CT16	16.0 oz.
CT8	8.0 oz.

Scraper 71510
486-071510

486-71510	71510 Adhesive Wheel Weight Super Scraper Removes emblems, body side moldings and stick-on wheel weights.	\$9.90
486-33581	3358 KD Heavy Duty Weight Tool - Ideal for all weights, including coated.	\$28.95

Wheel Weight Adhesive Removal Tool

A143252 - \$69.95

Replacement pad - A1432526 only - \$8.99

- Lock-off trigger for added safety
- High torque motor to cut through stubborn wheel weight adhesive, body pinstripes, etc.
- Rubber-insulated housing for comfort
- High RPM to prevent pad from bogging down; 3,700 RPM free speed

"TS" Series

CHEVROLET GMC - Use on full size pickup, Suburban, Yukon, Tahoe from 2000. Denali & Escalade use MCS for 2000

FORD - Expeditions from 1997 - F-100, F-150 from 1997

LINCOLN - Navigator from 1998

We recommend the use of TS series weights on all full size pickup trucks and vans equipped with steel wheels. The use of "REG" series passenger weights on thicker truck rims may cause over-stressing of clips resulting in weight failures.

Part. No.	Weight	Part. No.	Weight	Part. No.	Weight

Eco Balance Drop In Bags!

Eco Balance Beads are made of reusable and recyclable 99.9% tempered glass spheres. Our balancing beads are installed inside the tire, where they won't get knocked off and contaminate the environment like lead weights can.

10 oz. bag **As low as \$6.56**

10 oz. McGee 45101210

Scan QR code or visit www.counteractbalancing.com to find our application charts.

Counteract Balancing Beads

Every bag includes:

- Measured bag of Balancing Beads
- Filtered vortex valve core
- Counteract valve cap
- 8oz bags and up include flow-thru cap.

Counteract Balancing Beads is an easy to use, proven balancing method ensuring you have the smoothest ride possible. One bag of Counteract will keep your tire and complete wheel-end assembly balanced for the life of the tire. Counteracts testing has proven an increase in tire life, reduced maintenance costs, and a proven fuel savings of at least 2.2% with TMC RP-1102 Type II Fuel testing. Simply open the bag and remove the contents, place the clear throw-in bag in the tire and mount the tire. Upon the vehicles motion, the bag will break and the beads will continuously balance the entire wheel-end.

How It Works

The balancing beads will be distributed around the tire as it begins to roll through centrifugal force. As the centrifugal force of the balance (heavy spot) increases and pulls up and down on the suspension, the beads will start to move in the opposite direction of the downward and upward through inertia. The beads continue to travel until the complete wheel assembly is balanced.

Balancing the wheels of transportation

- Easy to use throw-in bag method
- Proven to increase fuel economy
- Color coded application chart
- Life time balance
- Balance whole wheel-end assembly not just tire and wheel
- Can be injected through valve stem
- Proven to extend tire life
- Flow-thru cap provided in 8oz bags and up
- TPMS friendly
- Download app to find tire size

IMI FLEXX MORE MILES. LESS FUEL.

FLEXX
MORE MILES. LESS FUEL.

BETTER FOR YOUR SHOP

Fast and Easy Installation

Take an unmounted tire, drop in the new EQUAL FLEXX bag and mount the tire. The bag breaks apart inside the tire for a clean application.

Safer Shop Floors

EQUAL FLEXX is a soft, flexible compound that is not slippery under foot, eliminating any bead-related risk of an accidental slip and fall in your shop.

BETTER BALANCE FOR YOUR CUSTOMERS

EQUAL FLEXX is the only internal, ADAPTIVE wheel-end balancer that can dynamically balance while responding to load, speed, and road forces by distributing weight at the foot-print immediately for the life of the tire.

400SS 4 Ton HD Floor Jack

\$409.99

- Twin hydraulic system for fast and efficient lifting
- Heavy duty pump, ram, and cylinders are precision machined and inspected to ensure long service life
- High grade U-cups seals and high-pressure plunger for maximum performance
- Rear mounted swivel casters for easy maneuverability
- Universal joint technology provides a more controlled descent
- Pinned and padded saddle for extra vehicle protection
- Flanged side plates for increased stability
- Integrated parts tray keeps small components from getting lost

INTENDED USE: Heavy duty truck, agricultural and heavy construction equipment. Ideal for loaded truck and trailer roadside service calls.

- Its light weight makes it perfect for mobile repair service.
- Long handle with 36-1/2" reach helps in positioning jack under vehicles with low overhang.
- Parkerized coating on pump piston, extension screw and extension adapters and chrome coated ram offer protection against rust.
- Removable extension screw with two 4" extension adapters (included) for added height.
- Self-retracting ram eliminates manual lowering.
- 5 1/4" diameter high impact composite wheels make maneuverability easy.
- Fast efficient air pump reduces lifting time and has a built-in relief mechanism which prevents the jack from being used beyond its maximum allowable capacity.
- Convenient push button air valve connected to an in-line filter prohibits contaminants from entering the air/hydraulic system.

Why Use Jack Stands?

- OSHA Regulation – 1910.244(a)(2)(iii) mandates that once a load is elevated, it must be immediately stabilized with cribbing, blocking, or other securing methods.
- Using a stand merely as a backup beneath the axle or frame in case the jack gives way isn't the right application of the stand.
- Jack stands aren't built to handle abrupt or sudden weights.
- Jacks aren't intended to sustain a vehicle's weight for prolonged periods.
- During maintenance, it's imperative to utilize jack stands to bear the entire weight of vehicles.

2-Ton Service Jack

- True "low-profile" design with deep reach and minimum 2.75" height for low clearance vehicles
- Universal joint mechanism
- Foam handle for vehicle protection
- Industrial grade casters for easy transport
- Safety bypass system for cylinder protection
- 24" max height for increased work space

Truck Axle Shims

As Low as \$7.29 each

Ordering one Part# supplies **SIX SHIMS** in a box. When placing order spring pad length and width is needed.

	COST	COMPRESSION STRENGTH	HARDNESS
ALUMINUM ALLOY	\$\$	★★★	★★★
ZINC ALLOY	\$\$\$	★★★★	★★★★★
MANGANESE BRONZE ALLOY	\$\$\$\$\$	★★★★★	★★★★★

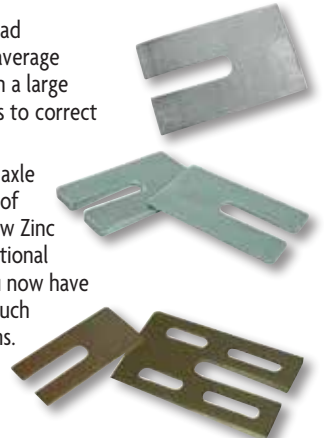

Specialty Products carries Truck Axle Caster Shims in three different alloys, giving the technician the opportunity to match price point and mechanical requirements to meet their customer's needs. **Choose from Aluminum, ZINC and Manganese Bronze Shims.**

Truck Axle Shims

ALUMINUM ALLOY HD SHIMS These economical over-the-road heavy duty truck axle shims are our lowest cost option. With average compression strength and hardness these shims are available in a large variety of sizes and offer the technician a cost effective means to correct caster on over-the-road trucks and trailers.

ZINC ALLOY HD SHIMS These over-the-road heavy duty truck axle shims are a fast and accurate means to align front or rear axles of most popular tandem trailers and trucks. Specialty Products' new Zinc Alloy shims offer another level of performance versus our traditional aluminum shims. For a small cost increase versus aluminum, you now have the hardness of our premium manganese bronze shims and a much improved compression strength as compared to aluminum shims.

MANGANESE BRONZE HD SHIMS These shims are the standard. Top of the line compression strength and hardness means that when you set your alignment - it doesn't change.

For sizes and more information go to: www.specprod.com/truckaxleshims

89199-89899

ZINC TRUCK AXLE SHIMS

Twice the coverage - half the inventory. Changes caster positive or negative from 1/2" to 4". APPLICATIONS: Any solid axle 2WD or 4WD vehicle. Note: Shims should not be stacked.

Void (Highlighted in Green) between stud and hole.

Hub centric nut fills void between stud and hole.

Ascot No.	Description	Price
491-00133	33mm Hex X 1.5mm Thread Made in USA Two Piece Elongated Neck	\$12.99
491-01133	33mm Hex Nut Replaces Standard Nuts on 11.25" Hub Piloted Wheels	\$9.49

By filling the void between the stud hole, "clocking" is eliminated, and problems caused by clocking, such as wheel offs and wheel hub vibrations, are eliminated.

- Stops rim from shifting forwards or backwards
- Eliminates "clocking" caused by standard wheel nuts not filling wheel hole completely

Split-Beam Click Torque Wrenches

- Extremely accurate: within 4% of reading from 20% of full scale to full scale
- Setting torque on adjustable wrenches is fast and easy because there is no spring tension on the adjustment knob
- Torque setting locks on adjustable wrenches for repetitive applications
- Wrench length designed to provide the leverage required for maximum torque applications. Also provides the needed reach for those hard to get at places.

Heavy Duty Truck Lock WHEEL LOCKS FLEET OWNERS AND OPERATORS: Wheel & tire theft is one thing you can't afford

For less than the cost of one tire, you can protect a complete Tractor and Trailer and avoid:

- Increased insurance costs
- Scheduling and delivery delays
- Additional expenses for downtime
- Thousands of dollars in stolen equipment
- Loss of perishable load
- Lost business
- Possible vehicle damage

Made in USA

Part No.	Description	Contains
52003	Wheel lock set for metric hub mounted disc wheels.	10 locks & 2 keys. Application-tandem axle tractor & tandem axle trailer.
52004	Thread: 22mm x 1.5.	6 locks & 2 keys. Application-tandem axle tractor or single axle tractor and single axle trailer.

Torq-Right® Truck Tire and Wheel Mounting System

To minimize wheel-offs and other problems associated with improperly mounted tire and wheel assemblies, the Tire Industry Association and the Maintenance Council of the American Trucking Association have established recommended best practices to mount and torque tire and wheel assemblies.

SC100 Stud Cleaner

The SC100 stud cleaner quickly and easily removes rust, road grime and foreign particles from wheel studs. Three carbon steel brushes engage the full thread and provide a clean surface for the wheel retaining nut allowing an accurate final torque.

SC100KIT Wheel Prep Kit

VIDEO

Call us to arrange a visit and individualized review of your wheel mounting procedures. We can also schedule a Torq-Right® class to update your techs on TIA and ATA recommended best practices.

Universal Demount Tool Kit 20415

- Safe, simple, fast, economical, and the most universal tire demounting system on the market
- Works as a hand-held tire machine and shines where other tools fall short
- Tackles the hard 19.5 reverse hubs and grader tires and can be used on all tire sizes from 10" ATV tires and up
- Great for agricultural tires, one-piece grader, loader, forestry and backhoe tires

20408 - Tool Demount Pneutek Impact Driven (Tool Only)

T115 Truck Tire Changing Stand **\$295.96**

Stand handles wheels or open rims 16.5" to 24". Double-slide adjustment with locking device prevents twisting so it stays aligned with the wheel or rim. Stand is the ideal height for driving off beads or demounting tires.

Golden Tool Tubeless Truck Tire Mount/Demount Tool

- Demounts/mounts 17.5" to 24.5" tires
- Use on all tubeless truck tires including super single/duplex tires, radial and bias
- Eliminates the need to lift tire and rim to remove the bottom bead, preventing possible strain or even serious injury

TNT200 for super singles

T950 IronMan™ Ergonomic Wheel Lifting Bar **\$89.99**

Reduces back strain. Easily and safely lift heavy, awkward truck tire and wheel assemblies. Extremely useful in outdoor conditions – when truck tire and wheel assemblies can become wet and slippery. Standard sizes including 22.5" and 24.5" wheels, plus European (which have 1" lug holes), Super Wide and even the Super Single

Stow & Go™ 4-Way HD Lug Wrench - 35636

- The Stow & Go™ 4-Way HD Lug Wrench folds to save space in your trunk and locks into place for easy use.
- Push button in center allows wrench to fold after use.
- Sliding arms give extra leverage for removing lug nuts.
- Made of heavy duty and durable alloy steel.
- 17mm, 19mm, 21mm sockets, and 1/2" square drive adaptor to be used with other sockets.
- 16" in length.

\$25.48

Wrench Lug LT Truck 4-Way **T90 - \$49.33**

- Sockets: 7/8" deep well, 15/16", 1", & 1-1/16"
- Various 4-way wrenches available.

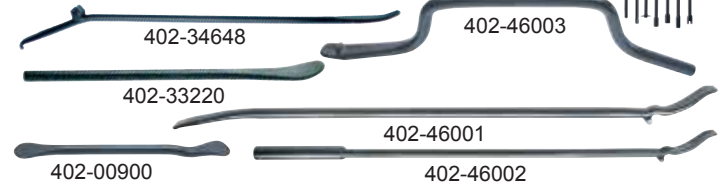

Lt Spare Tire Removal Tool Set

- Lower spare tire in 10 seconds
- Eliminates hunt for customer's tool
- Hanger included
- Do not use impact wrench
- 7 piece kit
- Replacement tools available

28 CUSTOM INFLATION SYSTEMS & SERVICE TRUCK PACKAGES

Auto Inflators save time and money. Proper inflation creates longer tire wear and increased fuel mileage. These self-calibrating units are accurate to +/- .03 psi. Can be used as a reference point to calibrate hand held gauges. Allows remote control of the inflation process, allowing the technician to avoid the "blast zone" during inflation.

Let us design a custom installation for your shop

Single Unit Controller

89XDB2

47711624 4-way accessory block and 47747732 6-way manifold available

*Two tire inflation system includes two 10 ft. flex polyurethane inflation hoses with fittings. 89XDB4 includes two 10 ft. and two 8 ft. flex polyurethane inflation hoses with fittings.

- In-Line air filter provides clean air for long term

- durability and trouble free operation
- USA manufactured air chucks assure leak-free tire valve connection.
- Flexible, light weight polyurethane inflation hoses with swivel connections provide quick, secure inflation.

McGee #STP10

Includes these items:

- 13HP Champion or Quincy Compressor with Honda engine - HGR73H or G413H30HCB
 - Electric Start
 - Automatic Idle
 - Fuel Pump
 - Air Gauge
 - Easy Access Tank Drain
- 10 Piece Truck Socket Set - 3190
 - 13/16" Square, 7/8" hex, 13/16" hex, 1" hex, 1-1/16" hex, 1-1/2" hex, 1-1/16" deep, 1-1/8" deep, 1-1/4" deep
 - Plus metal box
- 15517786 1" Square Drive Impact
- Dual Foot Air Chuck
- Truck Air Pressure Gauge
- 50 ft. 1/4" Air Hose
- 50 ft. 1/2" Air Hose
- Air Couplers
- 20-ton Hydraulic Jack

Steel surcharge may apply
Items may vary slightly from photos above.

Let McGee Company design the right kit for you or customize your own package from large to small OTR!

Truck Package Components

11076 - Original Maxi Bead Breaker

- Lightweight aluminum reduces weight by 40%
- Adjustable clamp allows for a perfect fit - regardless of the size of wheel
- Unit delivers 10 tons of force
- 2.75" (7 cm) stroke breaks beads often with only one "bite"
- Weight 31 lbs (14.1 kg) (Competitive to IMT1000)

Bead breaker pump chart

11076
\$1,999.99

"Combi" Tire Bead Breaker

- Works on a single, two and three-piece truck, agricultural and earthmover tire/rim
- Breaks beads in seconds using 10,000 lbs. of force
- No screws, bolts or attachments
- "Combi" bead breaker will not work on five-piece earth mover giant wheel/rim

422-11010

422-16200

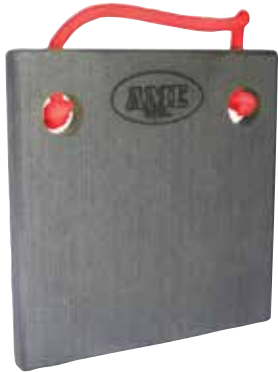

The 16200 upgrade kit can be added to Combi Bead Breakers in order to convert the tool so that it can work on new 3 piece wheels.

Air Reducer with 6" Whip Hose

- Maintains tool's recommended working air pressure
- Tamper-proof preset value, 110 PSI
- Assist in lengthening the life of hydraulic pumps & lifting equipment
- Ideal for all hydraulic tools to extend their life

10601k

McGEE COMPANY RECOMMENDED RECIPROCATING COMPRESSOR MAINTENANCE

This guide is not designed to be a complete maintenance manual for all air compressors. Refer to manufacturer's manual for detailed instructions. If the unit is in an excessively dusty area, increase frequency of all checks! Always turn power off before servicing.

DAILY CARE . . .

Check for proper oil level
Drain any condensate from receiver and traps
Check for any unusual noise or vibration

WEEKLY CARE . . .

Clean air filter
Clean all external parts of compressor and driver
Safety valve should be tested manually to see that it does not stick

MONTHLY CARE . . .

Inspect entire air system for leaks
Inspect oil for contamination and change if necessary
Check belt tension and wear

EVERY SIX MONTHS . . .

Change Oil
Inspect valve assemblies

Call 800-525-8888 today for details!

Detail maintenance chart available. Preventive maintenance programs available in Colorado.

Quincy QT® Compressors "Rated #1"

Meticulously designed for maximum productivity. Completely rebuildable with stainless steel valves and heavy duty cast iron crank case and cylinders. Leading the industry with the most CFM per brake horse-power. Includes ASME receiver, enclosed belt guard, EPA high efficiency motor, and loadless auto stop/start.

ELIMINATE WATER! Where Water Comes From

The atmospheric air entering a compressor intake contains water vapor. Because of the effects of compression, most of this water vapor turns into troublesome liquid water in your air lines.

Proper Piping for Compressed Air

- 100% aluminum for compressed air, copper ok as well.
- Aluminum offers excellent mechanical resistance to pressure and to impacts.
- The upgraded design of the new PPS1 aluminum fitting is more compact, lighter and more resistant.
- The aluminum alloy used, combined with epoxy paint on the outside and a treatment on the inside, protects the pipe against the risks of oxidation and corrosion.
- Simply insert the pipe into the fitting and then tighten the PPS1 fitting.

Two-Post Lifts

- Original "Double S" single piece column design maximizing strength
- Slider block bearings of Tivar 1000 polyethylene that self-lubricate and are maintenance free
- Adjustable height options with column extensions
- Asymmetrical and symmetrical designs to suit your needs
- Trio three stage arms for asymmetrical lifts
- Shockwave and standard (10,000-20,000lbs) configuration available in two-post
- Multi-position column locks

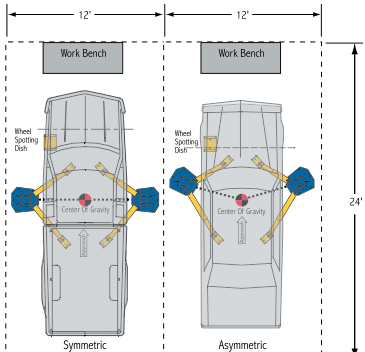

Our experts can help you design your air piping systems, lift installations, and lubrication systems to fit your needs.

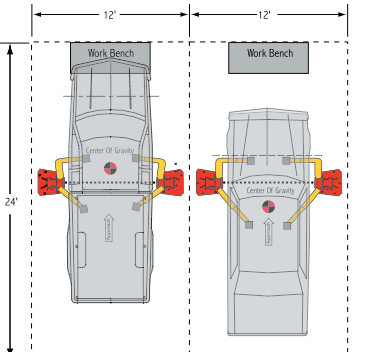

The World's Most Trusted Lift™ A DOVER COMPANY

Rotary Symmetric / Asymmetric

- Benefits of True Asymmetric Lifting:**
- When the lift is loaded properly, doors can be opened and the vehicle is positioned a minimum of 24" away from the nearest obstruction.
 - With true asymmetrical lifting, the columns are rotated 30° to place the approximate center of gravity of the vehicle in line with the optimum load capability of the column, reducing unnecessary wear and tear on the column, carriage and bearings.
 - Asymmetrical lifting provides more clearance at the rear of the columns (the open door contact point) approximately 117" vs. 103".

Versymmetric®* / 2-in-1 Lift

- Pitfalls of Versymmetric / 2-in-1 Lifting:**
- When the lift is loaded, long vehicles that should be loaded symmetrically extend too far forward, leaving no room for work benches or walking area. Asymmetrical lifting positions the vehicle too far back, which intrudes into the drive-through area or even an exterior bay door.
 - Versymmetric lifting places the approximate center of gravity of the vehicle in front of or behind the optimum load capacity of the lift. By doing so, wear and tear on the column, carriage and bearings is increased.
 - No spotting dish makes vehicle positioning "Guesswork".
 - The front arm is offset 5" which requires short wheelbase vehicles be pulled further forward to clear the front tire, which reduces the clearance to open doors.

SHOCKWAVE Equipped Lifts

- 2X Faster rise and descent than standard lifts
- DC powered which reduces installation/operating costs
- Two standard Group 24 batteries charged by the 110v that runs the lift removes the need for expensive 220v wiring and can operate during power loss
- Spotline motion activated laser helps spot vehicles the first time
- Available on lifts from 7,000-20,000 lbs

Inground Smartlifts

- 10,000-12,000 lbs capacity models available
- High efficiency power and air per lifting cycle, selected in key lead projects
- Reduces space usage and allows more lifts
- Trio three stage arms for pinpoint location
- Shockwave or standard available
- New wide inground (SL210W or SL212W) futureproofs your business, as they can service electrical vehicles.

Versymmetric and 2-in-1 style lifts have short arms on the front and long arms on the rear. This is done to accommodate the pick up points of vehicles that are shifted to the rear in order to improve open door clearance for the technician getting in and out of the car. In a symmetric load condition the vehicle is centered fore and aft (not shifted to the rear). The short front arms are unable to reach the pick up points in the symmetric load condition. This can be easily demonstrated by picking up an F350 as shown.

Smartlift Green Features

- Uses only 19 quarts "Bio-Fluid"
- An entirely closed system housed in a recycled polymer composite containment which protects the environment and the lift
- The Smartlift uses only .045 kWh of electricity and .01 cfm of air per lifting cycle
- Steel components and housing can be recycled again at the end of the lift's lifecycle

8560716108 Replacement black grip for new style Grip Max Plus

\$68.34
(8 each)

High Grip Jaw Protectors

Polymer jaw covers prevent metal-to-metal contact when performing external clamping. - TCX500 Series Machine

RP11811100358 - 8 ea. **\$109.99**

COATS

85610104 ADJUSTABLE PIN PLATES SET OF 3 FOR LUGS 3,4,& 5 \$2,699.99

- Works on any 40 mm balancer
- Adjustable design provides fast and easy clamping
- Lug clamping and centering prevents damage to alloy wheels
- 85609688-5 lug, 85609689-4 lug, 85609690-3 lug

85607503 - SLIDE NUT PREMIUM 2 JAW 40MM \$349.99

- Solid metal body lasts longer and won't shatter, if dropped.
- Binary Thread Engagement stays fully open during installation, eliminating wear from dragging the teeth across the balancer's threaded shaft.
- Fits coats 40mm shafts
- 85608312- No mar ring & 8112106 Pressure cup

8111935 - SPACER LT TRK BACK CONE \$329.99

- For use on certain deep offset applications.
- Can be used on any 40mm wheel balancer.

Steel ProGrip Quick Nut with Handles and Pressure Cup

483-40806

HW124408006 - \$299.99

Cemb 41FF83148 - \$289.99

Quick release wingnut with reverse mounting cup & no-mar ring, not for use with HD Truck balancers

Creates pressure necessary for Road Force balancers.

HUNTER, COATS

\$779.99

483-40110 ProCollet Kit 40mm

9 pc.
2.07" to 4.76"

The Low-Taper Collets are superior to standard cones because they have more contact area and engage the wheel at a better angle; they are also necessary for Clad Wheels because they are shorter and only contact the metal part of the wheel. They can be used for "standard" wheels as a replacement for the cones.

In Stock — Call for best price!

HUNTER

2027651 - BULLSEYE COLLET KIT GEN \$999

Kit includes:

- A. 175-392-1 6 in. clamping cup
- B. 46-653-2 Performance wheel & light truck spacer
- C. 14-1470-005 Cone carrier bracket support
- D. 56-70-2 Front balancer cone carrier
- E. 20-2683-1 Passenger to 3/4 ton dual-taper collet kit
- F. 106-157-2 Protector sleeve

2033581 - COLLET KIT ECONOMY MD \$1,199

- Does not handle the large 8 lug/8.7" bore found on some medium duty trucks. 20-3155-1 covers that application and includes 20-3116-1. Includes application chart.

2036981 - FLANGE PLATE AND STUD KIT ADJUSTABLE \$1,399

- This durable aluminum design can adjust from 98 to 210mm bolt patterns and covers almost all wheels in this range. It comes with (3) three sets of (5) five pins each to handle any application. These pins are 2, 2.5 and 3.25" long with diameters of 1 to .75" respectively.

Light Truck Cone Kit

\$399.99

HW150280091 28mm

Allows balancing truck wheels with center holes from 4^{13/16}" to 6^{7/8}". Used on rims with an alignment pin on the back. Double-sided cone fits all Coats balancers

40mm - 48340091 (113277) **\$249.99**

\$39.99

AutoSock has the OE Approvals!

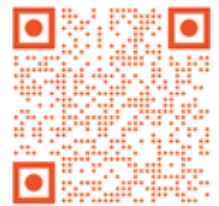

AutoSock is mentioned by name in the above OE manuals.

AutoSock is approved by leading international car manufacturers.

Why sell or use **AutoSock**.

- ⊕ OE trusted & approved by name
- ⊕ The original ATD pioneered by textile scientists
- ⊕ Fewer SKUs than the competition with better coverage with 300 more tire sizes!
*Comparison as of 6/15/23
- ⊕ Faster/easier to put on than chains
- ⊕ Multilayered design for durability & wear indications
- ⊕ Approval all the way through six axel vehicles throughout the US

www.AutoSock.us

Not all Traction Devices are Created Equal!

	AutoSock	Competition
Made In	India	China
Passenger Number of SKUs	10	16
Meets EU Winter Traction Standard	Yes	No
3rd Party Testing	Yes	No
Wear Indicators	Black innerlayer showing	Tearing
Max Speed	30 mph	25 mph
OE Approvals**	Yes***	No
Side Webbing	Yes	No
Designed to Fal Away From Vehicle	Yes	No
Durability	Two Layers	One Layer
Truck Approval up to 6 Axel & Below	Yes	No

*Comparison data 6/15/2023

**19 OEs as of 6/15/23 with AutoSock mentioned by name. Most up to date info at www.AutoSock.us

***Only DOT approved ATD product up to six axel vehicles in WA

- ⊕ **Less weight than chains**
- ⊕ **No damage to vehicle**
- ⊕ **No climbing under vehicles to grab broken chains**
- ⊕ **Great for low wheel clearance vehicles**
- ⊕ **Faster to put on, less than 5 minutes!**

Showroom displays for the floor or counter available!

DISTRIBUTORS WANTED

A specially designed surface pattern that makes the total contact area exposed to dry friction as large as possible.

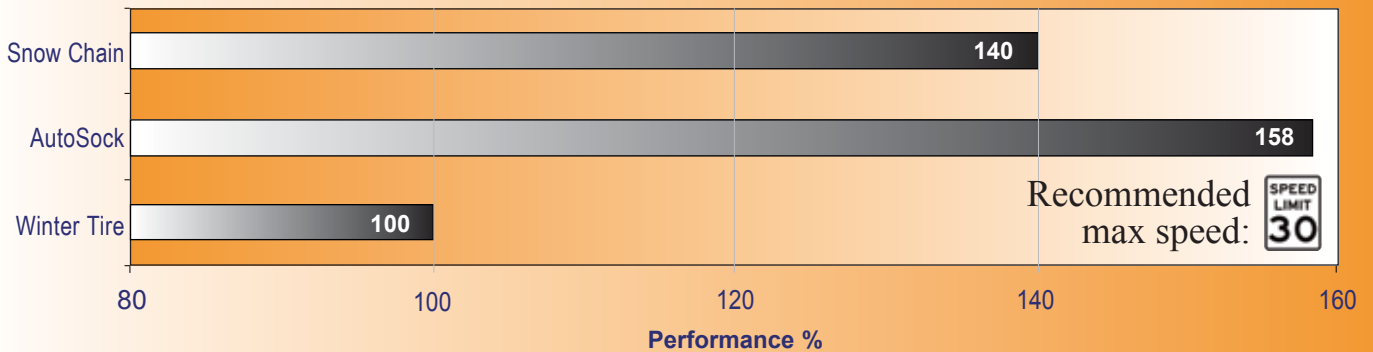

AutoSock® gets fuzzy "hairs" between and at the contact areas in order to increase the friction on snow and ice.

Mesh keeps snow out of the tread and wheel well while the orange straps help with centering and easy removal.

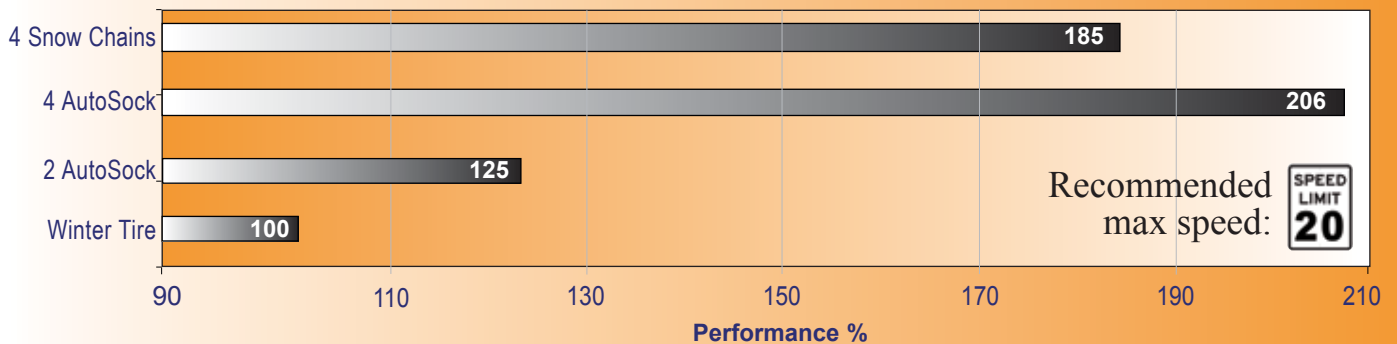

Colorado DOT demonstration

C-Series Low Pressure Hose Reels

- Reels ideally suited for plant maintenance, service trucks or other industrial functions
- Standard hose for air and water
- Single set screw to access spring casing
- Drive spring mechanism lubricated for life
- One piece combination latch, spring arbor, main bearing and spool support for fewer moving parts
- Brass swivel reduces corrosion potential
- Durable powder coated finish

HOSETRACT

Made in the USA

Ascot No.	McGee No.	Operating Pressure	Hose ID	Hose Length	Ship Weight	Price
125-35000	LC350	300 psi	3/8"	50'	54 Lbs.	\$342.86
125-55000	LC550	300 psi	1/2"	50'	60 Lbs.	\$385.71

How much are you leaving on the table by not doing service kits and TPMS?
